### TOWN MEETINGS.

Monday, March 2, 1903.

John W. Cawley was elected Moderator and sworn by the Town Clerk.

Charles S. Jewett, Clarence S. Lynde, Albert R. Ramsdell, James O'Loughlin, Charles P. Brawley, Herbert G. Daley, William Garside Jr., and Bernard W. Halpin, Tellers, having been appointed by the Selectmen, as required by law, were sworn to the faithful performance of their duties, by the Town Clerk.

The ballots were delivered to the Ballot Clerks, who receipted for the same, the ballot box opened, inspected and locked, after which the polls were declared open to receive ballots under Article 2 of the warrant.

Voted, To close the polls open under Article 2 at four o'clock in the afternoon.

Voted, That no action be taken on Articles of the warrant excepting Articles 1 and 2, until the date to which this meeting adjourn.

Voted, That when this meeting adjourn it be until Thursday, March 5, 1903, to meet in Armory Hall at seven o'clock in the evening.

By the unanimous consent of the Moderator and Town Clerk, the ballot box was opened at two o'clock in the afternoon, ballots taken therefrom, and the following additional Tellers appointed to assist in assorting and counting the same:

John A. Alden, Charles H. Parsons, Guy Trombetta, Walter Paige, Albert S. Woodward, Charles Baldwin, Harold D. Whiteman, Eugene A. Hoey, Winfield S. Hurd, Patrick J. Murray, Walter E. Murphy and William J. Corcoran, who were sworn in by the Town Clerk.

At four o'clock in the afternoon, in accordance with the vote previously taken, the polls under Article 2 of the warrant were declared closed, at which time the ballot box registered twelve hundred and thirteen, as ascertained by the Town Clerk.

the Town Clerk.
The number of names checked of persons having re-
ceived ballots, as counted by the Tellers, was 1209
Males 1191
Females
The number of ballots given out by the Ballot Clerks
was:
Males (2 spoiled) 1193
Females 18
The number of ballots returned to the Town Clerk, not
used, was
Males 609
Females 182
The number of names checked of persons having voted,
as counted by the Tellers, was 1209
Males 1191
Females 18
The number of ballots taken from the ballot box, as
counted by the Moderator, was 1209
Males 1191
Females
Three "Holt counting apparatus" were used in count-
ing the ballots, and the Tellers on each were appointed

according to law.

All the ballots cast having been assorted and counted, as by law required, declaration of the same was made as follows:

The valuation of personal property was taken from fig-			
ures given the committee by the heads of departments.			

Your committee would recommend that, when existing policies on buildings expire, excepting those which cover the Almshouse property, that the town insure its own property.

The detailed list of all town insurance will be found on page 199 of the printed town report dated Jan. 31, 1903.

Committee.

Stoneham, March 2, 1903.

Voted, To accept the report and adopt the recommendations of the committee on specific valuations of town property and insurance on same. (See report above.)

Voted, To accept the reports of Town Officers and Committees as printed, dated January 31, 1903.

Voted, That the Moderator be authorized to appoint a committee of nine to serve as the Finance Committee for the year ensuing.

The committee on advisability of purchasing land for a public play ground made a verbal report, through its chairman, Francis E. Park Jr.

Voted, That the report of the committee on the advisability of the town purchasing land for a public play ground, be accepted as a report of progress, and that the committee be instructed to have an article in a warrant calling some future meeting, for the purpose of bringing the matter before the town.

Voted, To raise and apropriate the following sums, to defray town charges, for the year ensuing.

Poor Department, receipts and	\$6,000.00
Military Aid	300.00
Repairs and Decoration of Soldier's Graves	325.00

Voted, To grant the free use of Armory Hall to Post 75, G. A. R., six evenings in the coming year when not otherwise engaged.

Voted, To water the following streets the year ensuing: Main street from Marble street to Elm street, Franklin street from Central square to a point sixty feet east of Pine street, Central street from Central square to Pomeworth street, Winter street, Church street, Common street, Tidd street and Montvale avenue from Main street to Cottage street, and that the assessment be made on frontage.

Voted, That the assessment on abuttors for watering streets as voted, be three cents per lineal foot.

Voted, That all taxes not exceeding three dollars in amount, shall be due and payable on demand. On all taxes exceeding three dollars in amount, one and one half per cent. discount shall be allowed, if paid on or before the tenth day of September; if paid on or before the tenth day of October, one per cent. discount shall be allowed; if paid on or before the tenth day of November, one half of one per cent. discount shall be allowed, and all taxes exceeding three dollars in amount shall be due and payable on the tenth day of December of the current year. On and after December tenth, interest shall be charged on all unpaid taxes at the rate of five per centum per annum. On the fifteenth day of February following the Collector shall proceed to collect taxes of all delinquents according to law. Interest and discount shall be reckoned on even dollars.

Voted, To accept Chapter 263 of the Acts of the year 1902, entitled, "An Act to authorize the Town of Stoneham to establish a Board of Public Works."

The above vote was taken by a count of hands; one hundred and seventeen voting in the affirmative, eight-eight in the negative.

A motion "To reconsider the above vote" was tried and lost.

Voted, To accept and allow the alteration, widening and relocation of Franklin street, between Pine street and Summer street, as laid out by the Selectmen and reported to the town at this meeting, and to raise and appropriate the sum of fifteen hundred dollars for the construction thereof, and to authorize the Selectmen to make an entry for the purpose of construction before all claims for damages are finally adjusted and determined.

# RELOCATION AND WIDENING OF FRANKLIN STREET MADE BY THE SELECTMEN JULY 12, 1902.

We, the subscribers, Selectmen of the town of Stoneham, after giving due notice to all parties interested, met at the corner of Franklin and Pine streets Saturday, July 12, 1902, at three o'clock in the afternoon, and proceeded to relocate and widen Franklin street from Pine street to Summer street, of which the following is a true description of said relocation and widening.

Beginning at the southeast corner of Franklin and Pine streets at an iron spike seventy-five and seven tenths (75.7) feet distant from the northwesterly bound of Franklin and Pine streets, and forty-three (43) feet distant from the southwesterly corner of Franklin and Pine streets, and four and fifty-eight hundredths (4.58) feet southerly from an iron rod, the corner bound as now existing of Franklin and Pine streets, thence the line runs south 55 degrees east over land of Stephen P. Finnegan, Abbie C. Bird, Hattie M.

Spencer, Eliza A. Whitney, estate of Daniel Poor, Sarah D. Kimball, crossing Pearl street, and over land of Eliza Harriman, Sophia Douty, Sumner A. Hovey and Amanda Lothrop, crossing Pond street to a stake at the southeast corner of Franklin and Pond streets, a distance of six hundred fifty-three and thirty-eight hundredths (653.38) feet; thence south 54 degrees east over land of Ethel L. Abbott, Charles B. Melvin, Sarah S. Stevens, Fannie F. Curtis and Carrie C. Smith to a stake on the westerly side line of Summer street, a distance of three hundred eighty-three and forty-five hundredths (383.45) feet, and four and thirtyeight hundredths (4.38) feet southerly of the existing line of said Franklin street; the above described line is the southerly line of the proposed relocation and widening of said Franklin street. The northerly line is parallel to and fifty feet distant from the above described line, and begins at a stake at the northeasterly corner of Franklin street and Pine street four and thirty-eight hundredths (4.38) feet northerly from the existing line of Franklin street, running parallel to the above described line to a stake on the westerly side line of Summer street, four and ninety-four hundredths (4.94) feet northerly from the existing line of Franklin street.

The above description conforms to a plan of said relocation and widening, made and drawn by William Butler Jones, C. E., dated July 7, 1902.

Signed, LEONARD P. BENTON, JOSHUA T. NOWELL, WALTER S. KEENE,

Selectmen.

Stoneham, July 12, 1902.

Voted, To authorize the Selectmen to adjust, determine

and pay, on such terms as seem to them best, the land damages arising from the alteration, widening and relocation of Franklin street between Pine street and Summer street, and to that end to employ an attorney if they deem best, and to raise and appropriate the sum of five hundred dollars, and to appropriate the sum of fifteen hundred dollars from money in the hands of the Treasurer toward the payment of said land damages and the expenses incidental thereto.

Voted, To raise and appropriate the sum of three thousand dollars to macadamize Marble street from Main street to the Winchester line.

The above vote was reconsidered at an adjourned meeting held Wednesday, April 2, 1903.

Voted, That a committee of fifteen be appointed by the Moderator, said committee to consider articles 20, 21, 22 and 23 (referring to the gift of Mr. Andrew Carnegie for a Free Public Library Building,) to give public hearings on same and report to an adjourned meeting.

The Moderator appointed as the above committee, Benjamin J. Hinds, George A. Hinchcliffe, Charles H. Chase, Cora E. Dike, Sarah A. Lynde, Georgie A. Richardson, Hon. William B. Stevens, James W. MacDonald, Sidney A. Hill, Arthur H. Cowdrey, Joshua T. Nowell, Edgar L. Patch, Onslow Gilmore, C. Fred Buck and William B. Snow.

Voted, To adjourn until Wednesday, March 11, 1903, to meet in Armory Hall at seven o'clock, evening.

# Adjourned Town Meeting.

Wednesday, March 11, 1903. Meeting called to order by Moderator John W. Cawley. Under authority of vote passed March 5, 1903, the Moderator appointed as the finance committee for the ensuing year, David T. Strange, Stephen P. Finnegan, Walter S. Keene, Joshua T. Nowell, Sidney A. Hill, Bernard H. Cogan, William P. Fletcher, Fred E. Nickerson, C. Fred Buck.

Voted, To raise and appropriate the sum of three hundred dollars for street railings and repairs to the same, the ensuing year.

Voted, To raise and appropriate the sum of one hundred and fifty dollars, to pay Mrs. Annie L. Knapp for gravel bought of her, and used by the town in 1901.

Voted, To lay a water main from Summer street, near the residence of James Higgins, easterly and southerly in and through Summerhill street to a passageway between land of Patrick J. Regan Jr. and Mary Leach.

Voted, To appropriate from money received from water rates, the sum of eight hundred dollars to carry out the above vote.

Voted, To repair Summerhill street from near the house of James Higgins, to the passageway between the land of Patrick J. Regan Jr. and Mary Leach; and that the expense be paid from the appropriation for highways.

Voted, To raise and appropriate the sum of two hundred dollars to complete the sidewalk on the north side of Hancock street, from the westerly bound of land of W. Massey, to Park street.

Voted, To raise and appropriate the sum of one hundred and seventy-five dollars to be expended for concrete walks and crossings, under Chapter 49 Section 43 of the Revised Laws.

Voted, To raise and appropriate the sum of fifty dollars to repair the public drain running through land of Martin

Mullaly, at the corner of Main street and Pleasant street, so as to properly carry off the water; and that the Selectmen carry this vote into effect.

Voted, To pay all town laborers one dollar and eighty cents for each full eight hour day's work performed the ensuing year.

Voted, That when this meeting adjourns it be until Wednesday, April 1, 1903, to meet in Armory Hall at 7 o'clock in the evening.

Voted, To appropriate the sum of one hundred dollars from money in the hands of the Treasurer, for the use of the Library Committee appointed March 5, 1903.

Voted, To raise and appropriate the sum of four hundred dollars to build a gravel or crushed stone sidewalk on the northerly side of Franklin street, from Stevens street to Isabella street.

Voted, To locate and place a fire alarm box at the corner of Park street and Marble street, and to raise and appropriate the sum of one hundred and ten dollars for the same.

Voted, That in regard to collecting a bill due from the town of Palmer, the Selectmen and the Town Treasurer be authorized to use such means in collecting the same as they deem for the best interests of the town.

Voted, To amend Section 4 of Article II of the town By-laws, by striking out of said section the words "February," "January," "January," and "ten," and inserting in place thereof the words "January," "December" and "December" and "twenty," so that said Section 4 shall read as follows: Section 4. The financial year shall commence on the first day of January and expire on the thirty-first day of December annually, and during the interval between the thirty-first day of December in each year and the time of making the next annual appropriations, the Selectmen

shall draw orders for any necessary payments, from the town treasury from any available funds therein, and the same shall be charged against the next annual appropriations, but such orders for any purpose not otherwise provided for by law, shall not exceed twenty per cent. of the entire amount appropriated for that purpose in the previous year.

Voted, To amend Section 10 of Article II of the town By-Laws, by striking out the whole of said Section 10, and inserting in place thereof the following Section.

Section 10. It shall be the duty of the Selectmen and Town Treasurer to keep all buildings situated on the Town Farm suitably insured against fire.

Voted, To adjourn until Wednesday, April 1, 1903, to meet in Armory Hall at 7 o'clock in the evening.

# Town Meeting.

Monday, March 30, 1903.

John W. Cawley was elected Moderator and sworn by the Town Clerk.

Wilson A. Bartlett, Guy Trombetta, John A. Alden, Walter Paige, Clarence S. Lynde, Charles P. Brawley, Eugene A. Hoey, Harold W. Whiteman, William Garside and Bernard W. Halpin, Tellers, previously appointed, were sworn by the Town Clerk.

The ballots were delivered to the Tellers, who receipted for the same, the ballot box opened, inspected and locked, and the key given in charge of the Constable, after which the Moderator declared the polls open to receive ballots under Article 2 of the warrant.

Voted, That when this meeting adjourns, it be until Wednesday, April 1, 1903, to meet in Armory Hall at 8 o'clock in the evening.

Voted, That all action under this warrant, excepting action under Articles 1 and 2, be postponed until the adjourned meeting.

Voted, To close the polls under Article 2 at four o'clock in the afternoon.

By unanimous consent of the Moderator and Town Clerk, the ballot box was opened at two o'clock and the ballots taken therefrom for the purpose of counting.

In accordance with the vote previously passed, the polls were closed at four o'clock in the afternoon, at which time the ballot box registered ten hundred and sixty-four, as ascertained by the Town Clerk.

The check list at the gate had the names of 1053 persons checked as having received ballots.

The number of ballots given out was 1053.

The number of ballots returned to the Town Clerk was 743.

The check list at the ballot box had the names of 1053 persons checked as having voted.

The number of ballots taken from the ballot box, as counted by the Moderator, was 1053.

All the ballots cast having been assorted and counted, declaration of the same was made as follows:

Whole number of ballots cast ...... 1053

## COMMISSIONER OF PUBLIC WORKS, 3 Years.

Voted, To adjourn until Wednesday, April 1, 1903, to meet in Armory Hall at 8 o'clock in the evening.

Blanks

# Adjourned Town Meeting.

Wednesday, April 1, 1903.

112

Meeting called to order by Moderator John W. Cawley. Voted, To reconsider the vote passed March 5, 1903, whereby it was voted, "To raise and appropriate the sum of three thousand dollars to macadamize Marble street from Main street to the Winchester line."

The original motion, "To raise and appropriate the sum of three thousand dollars to macadamize Marble street from Main street to the Winchester line," being tried, was lost. 44 voting in the affirmative and 94 voting in the negative.

Voted, To reconsider that part of the vote on watering streets, as pertains to Montvale avenue.

Voted, To water Montvale avenue from Main street to the westerly line of land of Georgianna Boyce.

Voted, To add North avenue and Harrison street to the list of streets to be watered.

Voted, To locate a hydrant at the corner of Gerry and Main streets.

Voted, To appropriate the balance of money in the construction account of the Water Department now in the hands of the Treasurer, together with the amount received the coming year as receipts from construction, the same to be expended by the Water Board for construction.

Voted, That the electric lights called for under Articles 43, 44, 45, 46, 47, 56 and 57 of the warrant be located by the Selectmen, and that we raise and appropriate the sum of one hundred and twenty dollars for the same.

Voted, To raise and appropriate, in addition to the amount already voted, the sum of one thousand dollars for miscellaneous expenses for the year ensuing.

Voted, To raise and appropriate, in addition to the amount already voted, the sum of three hundred dollars for the care of Lindenwood Cemetery for the year ensuing.

Onslow Gilmore, for the Library Committee, reported progress, and asked for further time.

Voted, To adjourn until Wednesday, April 22, 1903, to meet in Armory Hall at 7.30 o'clock in the evening.

# Adjourned Town Meeting.

Wednesday, April 22, 1903.

Meeting called to order by Moderator John W. Cawlev.

Voted, To raise and appropriate the sum of three thousand dollars, in addition to the amount already appropriated at the meeting held March 5, 1903, for repairs to the Highways for the ensuing year.

A motion to reconsider the above vote was tried and lost.

Voted, To raise and appropriate the sum of forty dollars in addition to the amount already appropriated at the meeting held March 5, 1903, for decoration and repairs to soldiers' graves.

Benjamin J. Hinds, chairman of the committee on the Public Library, read the report of said committee and moved "That the report of the committee be accepted, and that the recommendations be acted upon separately," said report being a majority report.

William B. Stevens read a minority report of the committee, and moved as a substitute motion "That the minority report be accepted."

#### MAJORITY REPORT.

The committee of 15, to whom was referred the subject matter of Articles 20, 21, 22 and 23 of the Annual Town Warrant relating to the acceptance of an offer of \$15,000 from Mr. Carnegie, for the erection of a Free Public Library Building, respectfully report the following:

The committee has held meetings on the evenings of March 10, 21, 27 and 31 and April 11, that of March 21 being devoted to a public hearing. Aside from these meetings of the general committee, the sub-committees on plans and location have had several meetings and otherwise given much time to the consideration of the questions at issue.

Through the courtesy of Mr. MacDonald, two members of the committee on plans, Prof. Patch and Mr. Hinds, were enabled to visit library buildings in Wayland, Stowe, Ayer and Westford. Later Mr. Buck and Mr. Hinds, of the same committee, visited the new building just completed at Walpole, where an offer of \$15,000 from Mr. Carnegie was accepted by the town. These trips have been of great value to the committee on plans, enabling them to consider

with much greater knowledge, the plans submitted for their inspection.

Three sets of plans, by competent architects, have been submitted, two accompanied by a proposal from a responsible builder to construct the building specified for the sum of \$15,000.

From information thus obtained, the committee is of opinion that an adequate and attractive building can be erected for the sum of \$15,000, stacks and other necessary furnishings not included. The committee are also of opinion that stacks and furnishings would cost \$2,000.

The sub-committee on location have given much time to the consideration of the subject assigned them, and have carefully examined a number of sites with a view to their situation, size, cost and general adaptability. The Wm. Tidd lot, the Arad Gerry lot, the Maria Stevens lot, the J. H. Green lot, the Rounds lot and the Aaron Hill lot, all on Main street, were examined and considered, also the lot in front of the Centre Schoolhouse on Central street.

The committee decided that they would ask for expert opinion on the merits of the different locations, and Mr. Loring, of Loring & Phipps, met the committee and visited the lots which seemed most suitable for a library building, after which he submitted a written opinion.

Basing its findings upon the reports of the committee on location and the opinion of Mr. Loring, the committee of 15 believe that the Rounds lot, at the corner of Main, Maple and Warren streets, is the most available and that \$1500 would be necessary for the construction of the retaining walls and for grading.

They further believe that the sum of \$1,000 should be appropriated for incidental expenses, such as architects fees, etc., in order that the \$15,000 may be available for the sole

purpose of erecting a building.

The committee therefore make the following recommendations:

## RECOMMENDATIONS.

T.

That the town do accept the offer of Mr. Andrew Carnegie, of fifteen thousand dollars to erect a Free Public Library Building, on the terms and conditions stated in the offer.

#### II.

That the town acquire by purchase the site known as the Rounds lot, for the erection thereon of a Free Public Library Building, provided a clear title to the same can be secured for twenty-five hundred dollars.

#### III.

That the town appropriate the sum of seven thousand dollars, for cost of site and grading, for furnishing the building and for incidentals.

Signed,
BENJAMIN J. HINDS,
For the Committee.

#### MINORITY REPORT.

The undersigned, a minority of the committee on the Public Library, regret that they cannot concur with a majority report, and respectfully submit their reasons therefor. While appreciating and recognizing the generous and public spirited action of Mr. Carnegie in offering to give to the town of Stoneham \$15,000 for a Public Library on certain conditions, we cannot fail to remember this offer comes in answer to a precedent request from citizens constituting themselves representatives of the town, and not as a volun-

tary gift in the first instance, from a person interested in Stoneham, identified with it, and therefore desiring to benefit the town.

It can be considered only as a public charity granted at the solicitation of the beneficiaries. To accept the money under these conditions, we believe, would be at the expense of our self respect, and would almost cause a blush of shame to a citizen who takes pride in the place of his birth or his adoption. It would be contrary to the spirit of a proud and self reliant New England town. But aside from sentimental considerations, a building erected for the purposes of a Public Library should be constructed, both in its exterior and interior, with some view to architectural and aesthetic effect, in addition to adequate and ample accommodations for public use.

We are not satisfied such a building, suitable for future wants, and commensurate with the usual requirements of Public Libraries, can be erected without a considerable appropriation in addition to the proposed gift.

"What is worth doing at all is worth doing well," and it is better to wait for more auspicious times and a more prosperous future, when we may hope ourselves to be able to build a structure which shall be creditable to the town, and adequate in accommodations during the years to come.

In our present financial condition it is necessary to exercise rigid economy, and for that reason a majority of the committee have reported in favor of a lot, in our opinion, unsuitable in location, area and surroundings, for the erection of a public building. As it is, \$7000, it is estimated, would be required to grade the lot, put in a suitable foundation and furnish the structure with stacks and furniture.

We are not convinced the result would be sufficiently satisfactory to warrant even this expenditure. If the edu-

cational advantages to the reading public were to be materially increased; if an additional literary stimulus were to be given to the community, we might hesitate in arriving at the conclusion to which we have come, but nomore books are to be put in circulation; no increased facilities are to be afforded, except possibly a larger reading room than the one in present use. The current expense of maintaining this Library would also be substantially increased, which can only be justified by an adequate return. For these reasons the minority of your committee feel constrained to put upon record their opinion that the offer of Mr. Carnegie ought not to be accepted.

Signed,
J. W. MacDONALD,
WM. B. SNOW,
W. B. STEVENS.

The substitute motion of Mr. Stevens "To accept the minorty report" being tried was declared lost; voting in the affirmative 129; voting in the negative 132.

Voted, To accept the report of the committee on Public Library as presented by Benjamin J. Hinds, and that the recommendations be acted upon separately. Voting in the affirmative 134; voting in the negative 127.

Voted, That the town do accept the offer of Mr. Andrew Carnegie, of fifteen thousand dollars to erect a Free Public Library Building, on the terms and conditions stated in the offer. Voting in the affirmative 138; voting in the negative 115.

A motion "To reconsider the vote last passed," was tried and lost.

Voted, That the town do agree to maintain a Free Public Library, at a cost of not less than fifteen hundred dollars a year.

Voted, That the town do acquire by purchase, the lot of land known as the Rounds lot, situated at the corners of Main, Maple and Warren streets, for the erection thereon of a Free Public Library Building, provided said lot of land, with all buildings thereon located, together with their contents, can be obtained for a sum not exceeding two thousand five hundred dollars.

Voted, To raise and appropriate the sum of two thousand five hundred dollars for the purpose of carrying into effect the foregoing vote.

A motion to reconsider the vote last passed, was tried and lost.

Voted, To reconsider the vote passed March 5, 1903, whereby it was voted "To raise and appropriate the sum of three hundred dollars for the salaries of the Sewer Commissioners for the year ensuing."

Voted, To reconsider the vote passed March 5, 1903, whereby it was voted "To raise and appropriate the sum of three hundred dollars for the salaries of the Water Commissioners for the year ensuing.

Voted, That the Moderator appoint a committee of fifteen to carry into effect the votes passed relative to a Free Public Library.

The Moderator appointed the following as that committee: Benjamin J. Hinds, George A. Hinchcliffe, Cora E. Dike, Charles H. Chase, Sarah A. Lynde, Georgie A. Richardson, Walter S. Keene, Edgar L. Patch, Sidney A. Hill, Onslow Gilmore, C. Fred Buck, Arthur H. Cowdrey, Joshua T. Nowell, John W. Spencer, William B. Snow.

Voted, To raise and appropriate the sum of three hundred dollars for the salaries of the Commissioners of Public Works for the year ensuing.

Voted, To raise and appropriate the sum of three hun-

dred dollars for the salary of the clerk of the Commissioners of Public Works.

Resolved, That the citizens of Stoneham, in town meeting assembled, desire to express to Mr. Carnegie their thanks for his very generous gift to the town.

Resolved, That the Town Clerk be requested to transmit to Mr. Carnegie this official action on the part of the town.

The foregoing "Resolves" were by unanimous vote. Voted, To adjourn.

# Town Meeting.

WEDNESDAY, April 22, 1903.

John W. Cawley was elected Moderator.

Voted, That the salaries of the Commissioners of Public Works be fixed at three hundred dollars per annum, the same to be divided as said Commissioners may determine.

Voted, That the salary of the clerk for the Commissioners of Public Works be fixed at three hundred dollars per annum, and that the Town Clerk serve in that capacity.

In the matter of bringing suit against Perlie A. Dyer or Louise C. Newbury, to recover the amount the town had to pay Anthony A. Rhuland for injuries received by him on North street, it was

Voted, To refer the subject to the Selectmen, and that they have full power to bring suit or settle as they deem for the best interests of the town.

In the matter of the town bringing suit against the Mystic Valley Street Railway Company, or its successors the Boston & Northern Street Railway Company, for failure of the said Railway Company to conform to the requirements of the conditions of its franchise, it was

Voted, To refer the subject to the Selectmen, and that they have full power to bring suit or settle as they deem for the best interests of the town.

Voted, To adjourn.

# Town Meeting.

THURSDAY, June 25, 1903.

Walter S. Keene elected Moderator.

Voted, To appropriate the sum of four thousand five hundred dollars to be expended for the furnishing of the Free Public Library Building and for grading the lot on which said building is to be erected; also to pay the incidental expenses incurred in the erection of said building.

Voted, That the Town Treasurer be authorized with the approval of the Selectmen, to borrow the sum of \$4500, for the furnishing of the Free Public Library Building and for grading of the lot on which said building is to be erected, and for the incidental expenses incurred in the erection of said building; and to issue notes of the town therefor, said notes to bear interest at a rate not to exceed 4½ per cent. per annum, payable semi-annually, and said principal sum to be payable as follows, viz: \$1500 in one year from date of issue, \$1500 in two years from date of issue, \$1500 in three years from date of issue.

Voted, To construct a sewer in and through Maple street from a point near the house of Charles A. Libby, westerly, to connect with the main sewer at the nearest practicable point.

Voted, To appropriate the sum of three thousand dollars to construct the sewer in and through Maple street.

Voted, To extend the sewer in Marble street, from the

present sewer at or near Congress street, westerly to a point at or near Park road.

Voted, To appropriate from sewer funds in the hands of the Treasurer, the sum of seven hundred dollars to extend the sewer in Marble street voted at this meeting.

Voted, To authorize the Treasurer to sell three sewer bonds, the issue of which has been authorized by the town, for the construction of the sewers voted under articles four and five of the warrant.

Voted, To authorize the Board of Public Works to petition the Metropolitan Water and Sewerage Board for authority to connect the sewer to be constructed in Maple street under article four of the warrant, with the main sewer in Stoneham of the North Metropolitan Sewerage District.

Voted, To purchase scales for weighing coal, hay, etc., and that a weigher be appointed outside of all coal dealers, and that purchasers pay for weighing.

Voted, To appropriate from funds in the hands of the Treasurer, the sum of three hundred and twenty-five dollars to purchase scales as voted.

Voted, That the appointment of a weigher be left with the Selectmen.

Voted, To request the Board of Public Works to move the curbstones on Franklin street, between Central square and Pine street, so as to narrow the sidewalk between said points.

Voted, To reconsider the vote whereby it was voted, "To appropriate the sum of four thousand five hundred dollars to be expended for the furnishing of the Free Public Library Building and for grading the lot on which said building is to be erected; also to pay the incidental expenses incurred in the erection of said building.

Voted, To appropriate the sum of four thousand five

hundred dollars, and in addition the amount received from the sale of the building and contents now standing on the Free Public Library Building lot, to be expended for the furnishing of the Free Public Library Building and for grading the lot on which said building is to be erected; also to pay the incidental expenses incurred in the erection of said building.

Voted, To repair the Armory Building and to appropriate for that purpose, from money in the hands of the Treasurer, the sum of five hundred dollars.

Voted, To authorize the Board of Public Works to sell the building belonging to the sewer department.

Voted, That a committee of three or more members be appointed to confer and act with similar committees appointed by the city of Melrose and city of Medford, and similar committees from any other adjoining municipalities, said committee to have authority to co-operate with said joint committee and to investigate the advisability of the town of Stoneham joining with said cities of Melrose and Malden and such other cities or towns as may agree to said plan, in erecting, establishing and operating a joint electric light plant for the purpose of lighting the streets and for municipal and commercial purposes of such cities or towns, and to report on the same. Said committee to have the power to co-operate in drafting a bill to be submitted to the next legis ature to secure authority to establish such an electric light plant, said bill to contain a referendum clause submitting the same to the voters of each city or town.

The Moderator appointed Joshua T. Nowell, Harry E. Hersam and Leonard P. Benton to act as the committee authorized by the foregoing vote.

The Moderator appointed as the committee on the Free Public Library Building the following: Benjamin J. Hinds,

George A. Hincheliffe, Charles H. Chase, Cora E. Dike, Sarah A. Lynde, Georgie A. Richardson, Walter S. Keene, Edgar L. Patch, Sidney A. Hill, Onslow Gilmore, C. Fred Buck, Arthur H. Cowdrey, Joshua T. Nowell, John W. Spencer, William B. Snow.

Voted, That the foregoing appointments be the committee on the Free Public Library Building.

The Moderator appointed as a committee to purchase and locate the scales under article 8 the following: Joshua T. Nowell, Harry E. Hersam, Leonard P. Benton, Arthur F. Hayward and Charles F. Blodgett.

Voted, To adjourn.

# RELOCATION OF TRACKS OF THE BOSTON AND NORTHERN STREET RAILWAY COMPANY ON MARBLE STREET.

Jane 2, 1903.

Town of Stoneham,

IN BOARD OF SELECTMEN.

Ordered on petition of Charles A. Patten, one of the abuttors on Marble street, and sixty-five others all residents of the town of Stoneham, it appearing that due notice has been given to all parties interested, by publication in the Stoneham Independent on March 21, A.D. 1903, and by notice duly mailed to the Boston and Northern Street Railway Company at its usual place of business, and said Street Railway having been represented by its duly authorized representative at said hearing, the same being fourteen days and more before the public hearing thereon held April 7, A. D. 1903, in the rooms of the Selectmen of the town of Stoneham, it is hereby adjudged that public necessity and convenience require that this Board order the change of location asked for in said petition.

That said Boston and Northern Street Railway Company is hereby ordered to remove their present tracks from the side of Marble street, and a new location be and is hereby granted the said Boston and Northern Street Railway Company as follows, to wit: Commencing at the junction of said Marble street and Main street, in said Stoneham, along said Marble street and in the centre thereof to the Winchester line.

Said tracks shall be laid in the centre of said Marb'e street, according to a plan to be filed with and approved by the Selectmen.

That the rails to be laid down in the new location be of the style known as the "T" rail, and to weigh not less than seventy-five pounds to the yard.

Also, the right to erect and maintain the necessary poles for the support of the overhead wire system; and the permission to operate cars over the above named location, by electricity.

That the portion of the street between the rails shall be macadamized to the satisfaction of the Selectmen.

Said Company shall lay its tracks to conform to grade as shown on a plan to be approved by the Selectmen, or other proper authorities, and shall make all cuts and fills called for on said plan, thirty-six feet wide.

Said Company is hereby granted the right to use electricity as the motive power on all its tracks for propelling its cars, and for the purpose of conducting electricity as a motive power from any station and from electric power producing machinery to cars, the right to erect poles, with or without projecting arms, or other devices which may be necessary therefor, and to connect the same with supply wires for the purpose of supplying electricity to cars, and also construct and maintain such stay wires and other wires

as may be necessary to properly construct and maintain the overhead system of electric railway known as the "Trolley System."

All posts, poles and other devices erected for the purpose aforesaid, shall be located with the approval of the Selectmen of the Town of Stoneham, or other duly authorized authority, and shall be placed so as not to interfere with the public use of said highway, and all said posts and poles shall be set in such manner as not to interfere with private driveways, and shall not be set in front of entrances to public buildings or dwellings.

All electric equipment shall be done by said Company in a workmanlike manner, and all poles shall be round, of chestnut wood, reasonably straight, of good, sound timber and painted.

One top gain shall be reserved on each pole erected by said Company, for free use for wires belonging to the said town, and the said town shall have the right to string its wires thereon.

All poles and wires of said Company within said town, shall be under the superintendence of the Board of Selectmen, its duly appointed agent, or any superintendent of wires hereinafter duly appointed.

All trimming of trees shall be done under the direction of the Tree Warden of the town of Stoneham, or other proper authority.

Said Railway Company shall use proper rolling stock and machinery, and keep the same and all tracks and appliances and property used in connection therewith, in first class order.

In case said Company shall refuse or neglect to keep its tracks, roadbed, structures and appliances in a condition

safe and convenient for public travel within the requirements of the Statutes and of this grant of location, necessary and reasonable repairs may be made thereon under the direction of the Selectmen or Board of Public Works, and the expense thereof shall be borne by said Company.

When it shall be necessary for any person or persons to move across or along where said tracks are located, any house or other building, of such height or size as to interfere with the poles or wires of said Company, a hearing shall be held, notice of which shall be given to said Company, and the said Company shall, upon receiving at least twenty-four hours notice in writing from the Selectmen, temporarily remove the poles and wires so far as necessary to allow the passage of such house or other building, for a reasonable period of time, at the expense of such party or parties as the Selectmen may determine.

The Selectmen may from time to time make such regulations as to the manner and extent of use of tracks, and the number and routes of cars as the interest of public travel may require.

Said Company shall pay all expenses and damages and save said Town of Stoneham harmless and indemnified from all loss, cost, damage or expense in consequence of and arising out of the construction and operation of said Railway.

Nothing herein contained shall be construed to abrogate or in any way nullify any statute right of the town, or liability or duty of said Railway Company with reference to the construction or operation of said Company.

Signed,
JOSHUA T. NOWELL,
HARRY E. HERSAM,
LEONARD P. BENTON,
Selectmen of Stoneham.

#### COMMONWEALTH OF MASSACHUSETTS.

July 31, 1903.

IN BOARD OF RAILROAD COMMISSIONERS.

Upon the application of the Boston and Northern Street Railway Company.

After due notice and hearing.

The Board hereby certifies that the alteration of the tracks of the Boston and Northern Street Railway in Marble street in the town of Stoneham, made by virtue of an order of the Selectmen of said town, dated June 2, 1903, a copy of which order is on file with this application, and as shown upon plan upon file in this office, is consistent with the public interests.

Attest:

Signed, Wm. J. McCULLOUGH, Assistant Clerk.

A true copy Attest:

Signed, Wm. J. McCULLOUGH, Assistant Clerk.

Boston, Mass., August 25, 1903.

TO THE HONORABLE BOARD OF SELECTMEN OF THE TOWN OF STONEHAM:

The Boston and Northern Street Railway Company hereby accepts, and in accordance with all general laws thereto applicable, the location of the Company's track in the town of Stoneham, to wit:

Commencing at the junction of Marble and Main streets in said Stoneham, along said Marble street and in the centre thereof to the Winchester line, as granted by an order of the Selectmen of said town dated June 2, 1903, and certified to by the Honorable Board of Railroad Commissioners of the Commonwealth of Massachusetts in accordance with the provisions of Chapter 399 of the Acts of the year 1902, by a certificate dated July 31, 1903.

Signed,

BOSTON AND NORTHERN STREET RAILWAY CO.

P. F. SULLIVAN,
J. M. CUNNINGHAM,
J. W. BARTLETT,
J. H. GOOESPEED,
ROBERT S. GOFF,
Directors.

Boston and Northern Street Railway Company.
Office of the President,

Boston, September 19, 1903.

To the Honorable Board of Selectmen of the Town of Stoneham:

The Board of Directors of the Boston and Northern Street Railway Company respectfully petition your Honorable Board for an extension of time to September 1, 1904, for building under the location on Franklin street granted by your Board on June 21, 1902.

Signed,

BOARD OF DIRECTORS OF THE BOSTON AND NORTHERN STREET RAILWAY CO.

By P. J. SULLIVAN,

President.

STONEHAM, October 1, 1903.

IN BOARD OF SELECTMEN:

On petition from the Board of Directors of the Boston and Northern Street Railway Company, it is hereby

Ordered, That an extension of time be and hereby is

granted for building under the location on Franklin street, granted by this Board June 21, 1902, as follows:

That portion between Main street and Pine street, to November 15, 1903, and the remaining portion from Pine street to the dividing line between the town of Stoneham and city of Melrose to August 1, 1904.

Signed,
JOSHUA T. NOWELL,
HARRY E. HERSAM,
LEONARD P. BENTON,
Selectmen of Stoneham.

## Town Meeting.

Tuesday, November 3, 1903.

The meeting was called to order by Joshua T. Nowell, Chairman of the Selectmen.

The Chairman announced as Tellers, who had been previously appointed as required by law, who were sworn by the Town Clerk, Walter Paige, Clarence S. Lynde, Mert W. Downs, Albert R. Ramsdell, Charles P. Brawley, Harold W. Whiteman, William Garside Jr., John W. Kelley.

The first set of ballots was delivered to the Ballot Clerks, who receipted for the same; the ballot box opened, inspected, the register set at 0, locked, the keys given in charge of Constable Walter H. George; after which the polls were declared open to receive ballots called for under the warrant.

Voted, To close the polls at four o'clock in the afternoon.

The Chairman announced as additional Tellers to assort and count the vote, the following, who were sworn by the Town Clerk, Seth D. Allen, William L. Crane, Edson C. Currier, George W. Frazier, Henry A. Thayer, Milton P. Weston, William H. Ahearn, Leon E. Blodgett, Herbert G. Daley, Bernard W. Halpin, Winfield S. Hurd, Patrick J. Murray.

By unanimous consent of the election officers, at two o'clock in the afternoon, the ballot box was opened and ballots taken therefrom for the purpose of counting.

Three "Holt counting apparatus" were used in counting the ballots; two Republicans and two Democrats assigned to each.

At four o'clock in the afternoon, in accordance with the vote previously taken, the polls were declared closed, at which time the ballot box registered 1310 as ascertained by the Town Clerk.

The check list at the gate had the names of 1305 persons checked as having received ballots.

The number of ballots given out was 1305.

The number of ballots not used and returned to the Town Clerk was 495.

The check list at the ballot box had the names of 1305 persons checked as having voted.

The number of ballots taken from the ballot box as counted by the Chairman of the Selectmen was 1305.

All the ballots cast having been assorted and counted and properly tabulated, declaration of the same was made as follows:

### BOSTON & NORTHERN STREET RAILWAY COM-PANY COMPLETION OF MARBLE STREET.

ACCEPTANCE.

Whereas, The Boston & Northern Street Railway Company has reconstructed its tracks on Marble street, Stone-ham, between the Winchester town line and Main street, to the approved lines and grades as required under the franchise granted by the Board of Selectmen, June 24, 1903, and according to approved plan and profile dated June 15, 1903, and

Whereas, the said Boston & Northern Street Railway Company has also complied with the requirements of the Superintendent of Streets in regard to macadamizing, track location and surfacing of the highway, provided that the said Boston & Northern Street Railway Company contribute \$250 towards the further expense of completing the surfacing of said street.

Now Therefore, we hereby accept said work as being the completion in full of all conditions and requirements of said tranchise as far as the same refers to the construction of the track and surfacing of the travelled way, and we further relieve said Street Railway Company from all responsibility for damage due to the present condition of said street, which is now considered as in process of reconstruction by the town of Stoneham.

Signed this 19th day of October, 1903.

JAMES A. JONES,
WILLARD MASSEY,
Of Board of Public Works.
JOSHUA T. NOWELL,
HARRY E. HERSAM,
LEONARD P. BENTON,

#### REPORT

OF THE

# SCHOOL COMMITTEE.

To the Citizens of Stoneham:

In presenting our annual school report for the year, we would say that our schools reflect credit upon our citizens. Their present excellent condition is due largely to the earnest efforts of our Superintendent and teachers, whose faithful work has made our schools rank among the best in the Commonwealth.

The year has been harmonious and much improvement has been noticed. While several changes have taken place in the corps of teachers, we have been generally successful in filling vacancies with able and earnest workers.

As a result of the coal famine which prevailed in the early months of 1903, our expenditures for fuel were largely increased, as will be seen in the financial statement appended, the sum total expended for this purpose being about \$1600 in excess of the year previous. The general repair and rebinding of text books, which were in very poor condition, has also cost considerably more than usual during the year past.

By strict economy, however, your Committee has been enabled to keep slightly within your appropriation. To accomplish this result, some much needed repairs have been perhaps neglected. Especially is this the case at the South and East school buildings, which badly need reshingling.

Owing to the increase of pupils, an additional school room was fitted up on the second floor of the old high school building, for the fifth grade, at the opening of the fall term. During the summer vacation, also, repairs, commensurate with our ability financially, were made in the several buildings.

It was deemed advisable, for the good of both pupils and the town, to discontinue sessions at the North street school at the beginning of the September term. This action was taken only after several hearings were given residents of that section of the town, who protested at the proposed move. Arrangements were made with Joseph Butler, beginning with the winter term, to carry twice daily, the children who had been pupils at the North street school to the North school, starting from the North street school and returning at the close of the morning and afternoon sessions, (four trips daily,) which plan has worked well at comparatively slight cost.

A few weeks ago, through the efforts of the Woman's Club, a sewing class for pupils of the sixth and seventh grades has met weekly in the old high school building, with very good results. The expense of tuition is defrayed by the club. In the near future, perhaps, we may be able to enlarge the scope of such useful work.

It may be interesting to note that the average membership of our schools, including pupils for whom we pay tuition to Melrose, is over 1100, which is a larger number than ever before. The average cost per pupil per year is \$23.55. The average cost in Melrose (last report obtainable) is \$20.11: in Wakefield \$24.44; Reading \$26.89: Woburn \$20.10; Winchester \$27.10; Medford \$28.10; and Malden \$29.13. The state average per year for each child is \$27.04. (Report State Board of Education, page 108.)

Your committee recommend, as a matter of both economy and necessity, the painting of the old High school building, and the shingling of the South and East school buildings, which are in deplorable condition.

For the support of the schools for the ensuing year, we recommend the appropriation of \$25,000, and the unexpended balance of this year, to be expended approximately as follows:

Salaries (including superintendent) fuel and care	\$21,700
Books and supplies	1,500
Repairs and incidentals	1,600
Tuition	1,275
Secretary and care of books	125

We submit herewith our annual financial statement, which, owing to the change in the town year, covers a period of but eleven months:

### Financial Statement.

Town Appropriation	\$25,000.00

#### REPORT

OF THE

# SUPERINTENDENT OF SCHOOLS.

To THE SCHOOL COMMITTEE:

I have the honor to present herewith my tenth annual report as Superintendent of Schools,

Owing to a change in the by-laws of the town, this report covers a period of eleven months only, ending Dec. 31, 1903.

The total average membership for the year ending June 24, 1903, was 1050, an increase of 36 over the preceding year, and an increase of 74 over the year ending June, 1901. The enrollment for September of this year shows an increase of but 19 over that of last year. There was a small decrease in some of the highest grades, but there were more pupils than could be easily cared for in grades three to six inclusive. At the beginning of the fall term an additional school was opened in the former high school building. This change made it easy to place but a

single grade in each room. Even with this increase of sittings it has been difficult to give every pupil a desk. But by numerous transfers all were provided for, though with some inconvenience. Parents have appreciated the circumstances and have been very considerate. In the schools of grades three to six inclusive—ten in all—there are in every case more than forty pupils. The average is forty-five. There are pupils enough for another school of forty, leaving not less than torty in each of the present schools. A room in the third story of the former high school building might be utilized for this purpose.

When another school is opened, it would be well to make it an ungraded school. To it could be sent pupils from either of the intermediate grades who for any reason were unable to work to good advantage in the regular class. Pupils who have lost much time for any reason, or who are unable to advance as rapidly as the class moves, could be placed in a school of this kind and be given individual attention. In nearly every room there are one or two pupils who need just the treatment they might receive in a school of this character, but who cannot do their best as they are now placed.

The tardinesses for the year are 1984, an increase of 417 over the preceding year. Nearly one third, or 617, are credited to the high school including grade nine, 241 to the former high school building, 306 to Centre school, 348 to North school, 217 to East school and 229 to South school. Occasionally tardiness may be necessary and excusable, but probably one half of the cases of the past year might have been prevented. Too frequently the cause is sleeping too late in the morning, a slow clock, loitering on the way to school and going on errands too near to school time. Now and then teachers have worked so effectively to reduce tar-

diness that they have increased absences. This is unwise, for it is better to come to school late than not to come at all. On the other hand, all the teachers should work persistently and wisely to reduce to the vanishing point unnecessary tardiness and absence, and the co-operation of all parents is requested. Punctuality, and regularity as well are virtues which should become habitual characteristics.

Since the last report was made eight teachers have resigned, seven have been elected and seven transferred. This indicates more changes than usual and a larger number than is desirable. It is not easy to maintain the excellent standard of our schools unless we can obtain the services of efficient teachers whose term of service with us shall average more than two years. This it is difficult to do at the salaries now paid. The following is a complete list of changes:

RESIGNATIONS.	SCHOOL.	ELECTIONS.	
Mary L. Bryant,	Centre,	Fannie A. Davis.	
Florence Healey,	. 66	1	
Florence M. Wellington,	East	۵	
Nettie A. Tarbett,	6.6	M. Elizabeth Gilson.	
Ernst Makechnie,	Music,	Alonzo A. Cole.	
	Centre,	Kathleen E. Desmond.

Amelia E. Parsons,	North St.	East.	
Florence C. Meriam,	South	Centre.	
Alice H. Smith,	Centre II	Centre V.	
Bessie M. Small,	Centre	South.	

#### OUR PUBLIC LIBRARY.

Our new library building is now approaching completion. This is of interest to us because it means enlargement of library privileges. The school and the library are both educational agencies and they should work together. sections of the country they are doing this to an extant unthought of a few years ago. "To fix the reading habit, to give it right direction, through such a knowledge of books as will give the power to discriminate, the will to choose, and mastery to use and enjoy, has become the common problem of teacher and librarian." When we have librarians and library trustees who understand the needs of schools as in this town, and teachers who know about libraries and the problems of their management, and when these two parties come together in friendly conferences to consider ways of making the books of the greatest service to our young people, the right thing is likely to be done.

Our library management have shown the greatest consideration of the needs of the schools. They have been liberal in giving opportunity for the circulation of books at school under the care of the teacher, and in giving teachers special library privileges. The librarians have shown interest in the needs of the young readers, and have given them valuable assistance in selecting books.

With the occupancy of the new building we hope for a larger use of the public library. We are pleased to have boys and girls in school reading good books. It is well for them to go to the library for books in connection with their school work. But we feel as though their education was in a measure a failure if they do not continue to make good use of the library after they leave school.

#### SEWING.

The Woman's Club has often shown commendable

interest in the public schools. Recently this interest has found expression in a successful effort to establish classes in sewing. The movement met with popular approval, and already the classes are at work. The girls of grades six and seven are taking the lessons, and although the attendance is entirely voluntary and the class meets Saturdays, nearly all the girls of these two grades attend. Sewing should become a part of the regular school work. It is one way in which we may make our curriculum broader and more practical.

#### MUSIC.

Music has been taught in our schools for many years and with commendable success. Much excellent work has been done, but we are anticipating even better things. The pupils sing well, although there is evidence that they do not do so without assistance. Sometimes I have visited schools and the teacher has attempted to demonstrate the musical attainments of the children by having all sing a song with the help of a musical instrument. It is quite possible for children to sing accompanied by the piano, without any instruction in reading music. It is easy for a class to learn to sing songs and yet have little real musical knowledge.

We are realizing the importance of applying the same principals of teaching to music that we do to other branches. We do not teach reading by having the class read in concert. In reading, arithmetic and all other studies, the best recitation work is by the pupils one at a time-individual instruction and recitation. Teaching music in large classes alone will never secure the best results. Each boy and girl should be taught to read music in much the same way that he is taught to do problems in arithmetic. Every child should have a chance to sing alone as often as possible. In the first six grades, probably one half of the music time is not too much to devote to individual work.

Mr. Ernst Makechnie, who has had charge of the music department for several years, resigned during the summer vacation. Mr. Alonzo A. Cole was chosen his successor, and he enters upon his work with spirit and determination. A good beginning has been made. Your attention is called to his report.

MR. CHARLES E. STEVENS,

SUPERINTENDENT OF SCHOOLS,

DEAR SIR: I herewith submit my first report. The music in the public schools of Stoneham has been continued along the same general lines as formerly, but in matters of detail some things have been changed, others have been dropped and still others have been introduced, all of which was to have been expected, if improvement and progress are to be made. The simplest rudiments of Musical Theory are, today, presented to children of the first and second grades through the medium of songs and stories. training and the writing of music have been introduced into all grades between the second and ninth. The familiarity with musical symbols and their proper use, which the writing of music demands, is invaluable. All real knowledge is gained by doing. In writing music the pupil uses the things he otherwise would simply hear talked about. Then written work, of necessity, must be individual work, and upon the individual ability of the pupil depends the success of the music work in every department.

There is everywhere abroad in this Christian land, beginning early in December and increasing until the schools close at the end of the term, a hard-to-be-defined spirit of good will, which permeates all grades of society and affects alike teachers and pupils in our public schools. This Christmas spirit was recognized by the preparation of Christmas Carols, in all the schools from grade one through

the high school. While there were visitors at some of these concerts, the programs were prepared for the teachers and pupils themselves. However, if one half the pleasure taken in the preparation of the carols was felt in hearing them, the visitors were amply repaid for their attendance. Appreciation and gratitude are due from the new supervisor of music, for the courtesy and kindness shown to a stranger, by members of the committee, the superintendent and the teachers.

Respectfully submitted, ALONZO A. COLE.

#### DRAWING.

In this department good work is being done and progress is evident. The children enjoy the pencil and brush and use them with pleasure and profit. Drawing seems to have established itself as one of the essential parts of school work. Even those people who recognize no other reason for teaching any subject except its economic value, are willing to admit that drawing is one of the most practical subjects, since it has direct and powerful influence upon industrial success. But drawing has other and more noble ends to serve in developing the æsthetic nature, teaching children to appreciate the beautiful and thus bring more of joy and good taste into the common things of life.

Several of our teachers and many of the pupils have been interested in obtaining for their schoolrooms attractive pictures to adorn the bare walls. In these efforts they have been successful, and a good number of excellent pictures have been purchased and placed in position, ever in view of the children, to exert their silent but powerful influence.

Our course in drawing as now planned is good, but it would be much better if it could be extended to include

much more of construction work and simple forms of manual training.

The report of Miss Cross, who has managed this work so successfully for several years, is here inserted.

MR. C. E. STEVENS, SUPERINTENDENT OF SCHOOLS,

DEAR SIR: During the past year, the classes have completed the courses of study a little more rapidly than usual, thus allowing opportunity for additional work. In the eighth and minth grades, this extra study has been largely pose drawing.

While we recognize the truth that no drawing is so difficult as that from life, we yet feel that the training which it gives is very beneficial, even though the drawings themselves may not prove so satisfactory as usual. Until now, representation has been confined to still lite, and since the pupil knows that the subjects will remain placed exactly the same for an indefinite period, he often gets into the babit of looking carelessly, relying upon looking many times rather than upon a few comprehensive glances. When the model is a person, he realizes that his subject cannot remain long in the same position, and makes greater effort to see truly at first.

Then there is the danger that the pupil may become too easily satisfied, if he is permitted to draw always from still life. He may think that it is of no consequence if his drawing is not of exactly the same proportions as the model, since his drawing may look well, and since perhaps no one, without first having seen the model, could discover his drawing to be incorrect. But when he tries to draw a person, he cannot fail to realize that his drawing must be fairly good in proportions, or it cannot but provoke criticism, even from one who knows nothing about drawing. A vase may be twice as high as it should be in comparison with its

width, and it both sides are alike and the shading correct, the drawing may pass as a good piece of work, provided the model has not been seen. But a sketch of an individual twice as high as it should be,—this truly is an absurdity that would not pass unnoticed, however ignorant one might be of drawing or of the appearance of the model who posed for the sketch.

To obtain a likeness in pose drawing, is too difficult a task to require of public school pupils, but to obtain drawings correct in general proportions, is a study which may result in great benefit. The absurd mistakes made by all in their first attempt, enable them to understand how much more of accuracy is required in this work than in any other, and the very absurdity of the mistakes, so evident that it needs no teacher to discover them, helps them to become their own critics. Since much of one's success in life depends upon an eye quick to discern, a mind quick to think, and a hand trained to obey the eye and mind, pose drawing, which cultivates these to an unusual degree, must prove of great value.

In the eighth and ninth grades, the classes have had new subjects for design, both, however, being patterns for linen. In the eighth grade, the designing of towel patterns, has been introduced, and in the ninth grade, designing of table linen. The designs have been drawn and painted with Chinese white upon tracing paper, and then tinted backgrounds placed beneath the paper to show the figures more plainly.

Each year the drawing in the high school becomes more advanced in nature, and now study there is entirely in water color or pen and ink.

The drawing in the lower grades has continued much as usual, some additional work having been given, but not

so different from the regular work as the extra drawing in the eighth and ninth grades. Much credit is certainly due our teachers, by whom so many of the lessons in drawing are taught, and I desire to thank them as well as the committee and yourself for all the assistance rendered.

Respectfully submitted, EVELYN F. CROSS.

#### HIGH SCHOOL.

During the past eight years our high school has had remarkable growth. It has doubled its membership, although the population of the town has increased but little. Naturally we should not expect further growth except as a result of increase in population or the addition of courses of study not now offered. The present membership is somewhat less than one year ago, as the last graduating class was large and the class entering in the fall did not numerically make good the losses.

During the summer vacation Miss Trowbridge tendered her resignation, to accept a better position, and Miss Josie S. Miner, a graduate of Brown University, was chosen her successor. There have been no other changes in the teaching force this year.

The excellent work of our high school is recognized by all who are familiar with its class room instruction. Your attention is invited to the report of Principal Emerson.

MR. C. E. STEVENS,

SUPERINTENDENT OF SCHOOLS,

DEAR SIR: I have the honor to submit my ninth annual report.

The average membership in the high school for the year beginning Sept. 9, 1902, and ending June 26, 1903, was 139.6.

Our present enrollment is:	
In four years Classical Course	54
In four years English and Modern Language Course	56
In three years English Course	5
In three years Business Course	
Total in high school	136
In ninth grade	

Last June a class of thirty-five graduated from the high school. Fourteen of the class are continuing their studies in other educational institutions.

I am sure the efficiency of the high school may be increased by employing an additional teacher, and by materially strengthening the Business Course.

During the year the school has received several gifts of minerals, books and magazines. We are especially indebted to Mr. Upton, class of '98, and to Mr. Counce, class of 1902.

I regret the matter of Athletics has not been placed on as firm a foundation as we could wish; however, several moves in the right direction have been made.

The base-ball league, including Andover, Reading, Saugus, Woburn and Stoneham, proved a success.

The milita company is in good shape. Its officers the present year are: Capt., Robert A. Scally; 1st Lieut., Lawrence E. Doucett; 2d Lieut., Luther F. Yancey; 1st Sergt., Roland Hutchins; Qm. Sergt., Dana Hay; 2nd Sergt., Ernest Patch; 3rd Sergt, Russell Ervin; 4th Sergt., Robert Connors; 5th Sergt., Charles Newhall; Corporals, Moulton, W. McHale, M. McHale, Patchett, Hoey, McLaughlin.

At the annual prize drill Alfred L. Buck won first prize, a gold medal; Charles S. Newhall second prize, a

gold and silver medal, Harvey H. Drown third prize, a silver medal.

Mr. Arad Gerry Jr. contributed one of the prizes.

For the ninth time I would urge the necessity of study out of school hours. Parents may feel sure their boys and girls are not doing as good work in school as they ought, when they report they do not need to take their books home for study. The brightest pupils in every class find home study absolutely necessary. The school building is open every afternoon from 3 to 4.30 · P. M., for such pupils as need to consult teachers and wish to make use of the school library.

All departments of the school have done good work the past year.

The thanks of pupils and teachers are due citizens, school board and superintendent, for assistance and co-operation in all matters tending to the good of the school.

C. J. EMERSON, Principal.

#### PHYSICAL EDUCATION.

One of our unsolved problems pertains to physical education. It has been said that school life should not merely prevent injury to health; it should benefit health. There should be such study of the laws of health, and such skill in their practical application, that a proper development of the human body may be assured. All the conditions of school life should be so thoughtfully planned, all the occupations of the pupils so wisely selected, and the out-of-school activity so carefully directed as to secure proper and healthy development of the body. If it is true, as scientists assert, that the most desirable results of education depend upon tissue changes in the brain structure, and these, in turn, depend upon digestion, circulation and vigorous phy-

sical condition, then it would follow that good health and a proper working of the mechanism of the body are essential to good education.

We have done much already for the comfort and health of the children, as seen in our school houses with approved methods of heating and ventilation, modern furniture and wholesome sanitary conveniences. Something more may be done. For all normal children it is desirable to have a daily period of body exercises which will increase the circulation, clear the brain and fill the lungs with pure air. The benefits of such exercises are conceded, even in schools which allow but a few minutes each day, noticeable improvement in the sitting, walking and breathing of the pupils is shown.

If there are physical defects of any kind, they should receive the careful attention of teachers and parents. Early discovery of any difficulty with sight or hearing and prompt application of corrective measures, is of the greatest importance. When children are flat-chested or round shouldered or have spinal curvature, they should be studied individually and an attempt made to remedy their shortcomings. children are pale, weak and take no delight in the playground, their lungs should be examined, their habits investigated and their food carefully prescribed. But physical abnormalities of so severe a type would not be frequent if there was constant and painstaking attention to physical development from the earliest years. This work must not be neglected. While parents and physicians may be expected to assume the responsibility, undoubtedly the teachers should actively lend their aid.

Under the most favorable conditions, systematic and progressive physical exercises, combined with careful study of the needs of individual pupils, is of great benefit to physical, mental and moral health. Of course they do not take the place of the supervised games and play of the out-door recess, for their purpose is quite different, yet both have a place in physical education.

The health of children cannot be too carefully considered. Abounding health means brighter and stronger minds. It means greater courage and self-reliance, which makes it easier to be truthful and honest. Parents and teachers are very slow to realize the close relation between physical weakness and vicious habits. If children are stupid and untruthful, it is possible that they need such treatment as will improve their circulation and enlarge the lungs more than they need a sermon or punishment.

This leads us to add a word in regard to football, base-ball and basketball, which are receiving so much attention by pupils in the high school and upper grammar schools. Under proper conditions these games are of much value to the players, in furthering physical growth and development. Unfortunately, the great benefit which might be derived is not gained, because only the few instead of all play. Then, too, often the good that might be accomplished is more than balanced by improper practices and attending evils. Frequently too many games are arranged, thus subjecting the players to too great strain. Boys and girls of school age ought not too frequently to indulge in prolonged physical exertion. Too much attention to these games results in lessening the time given to study.

Frequently the desire to beat is so strong that players resort to practices not wholly fair or honest in order to win. Then, too, there is a tendency to gamble on the result of the games—a tendency wholly unfavorable in its influence. Probably the time will come when these games will be regarded as a part of the work of physical training and be as

carefully directed by the teachers as any other part of school training. In that way I believe they may be made to yield a much larger measure of physical and moral value.

Under present conditions of home life and school training, it is not possible for all boys and girls to secure normal growth and the best physical development without special care. There may not be serious defects or dangerous symptoms, but if there is not abundant evidence that growth is proceeding satisfactorily and that health is good, expert advice is necessary. For this reason I strongly favor annual physical examinations of all pupils. These examination should be sufficiently thorough to discover marked defects of sight, hearing, circulation and of the nervous and muscular systems. There should also be recorded judgments as to general vitality, nutrition and other important observation. The result of these examinations should be furnished to the home for the guidance of parents, and to the school for the information of the teacher.

Without extended discussion, these statements are made and your consideration invited. I am well aware that some expense is involved, but I believe this is nothing compared to the good which may be accomplished. Our state is burdened with the blind, deaf and dumb, feeble-minded, paupers, epileptics, insane and criminals. Millions are spent annually in caring for these classes. If their education had been begun in the right way a century before they were born, and continued in the same way until they were at least fifteen years of age, a large part of this expense would have been saved. These suggestions are made with the belief that the preservation and improvement of the health of the growing child is a fundamental condition of social progress.

In conclusion permit me to gratefully acknowledge the encouragement and warm hearted support of the teachers, and to commend their excellent service, and to express to you my appreciation of the pleasant conditions under which

I have been privileged to work.

Respectfully submitted, C. E. STEVENS, Superintendent.

# REPORT

OF THE

# BOARD OF SELECTMEN.

TO THE CITIZENS OF STONEHAM:

The Board of Selectmen have the honor of submitting the following report for the year ending December 31, 1903, which covers a period of eleven months, an amendment to the town by-laws making the financial year end December 31, instead of January 31 as formerly.

#### FINANCES.

We refer you to the reports of the Auditors and Town Treasurer for the financial condition of the town.

#### HIGHWAYS.

This department has been under the charge of the Board of Public Works, which Board was authorized under the following Act of the Legislature of the year 1902. The Act was accepted by the town at the meeting held March 5, 1903, and at a meeting called for that purpose held March 30, 1903, elected three commissioners to serve as that Board, as provided in the Act.

# CHAPTER 263, Acts of 1902.

An Act to authorize the Town of Stoneham to establish a Board of Public Works.

SECTION 1. Upon the acceptance of this Act as provided for hereinafter, the town of Stoneham shall, at a legal

meeting called for that purpose or at any annual town meeting, elect by ballot three persons who shall serve and be known as Commissioners of Public Works, and who shall hold office, one until the expiration of three years, one until the expiration of two years and one until the expiration of one year from the annual town meeting at which they are elected, or which follows the special meeting at which they are elected. Thereafter one such Commissioner shall be elected annually at the annual town meeting, to serve for the term of three years therefrom. The Commissioners shall serve until their successors are elected and qualified. Any vacancy occurring in said Board may be filled for the unexpired term by said town at any legal meeting.

Section 2. Upon the election of said Commissioners, or of a majority of them, the offices of sewer commissioners and water commissioners of said town shall be abolished, and thereupon all the powers, duties and liabilities conferred or imposed by law upon the said sewer and water commissioners shall be conferred and imposed upon the said commissioners of public works; but nothing herein shall be construed to authorize the said commissioners, or any of them, to collect or receive water rates or any other money due the town. The aforesaid transfer of powers, duties and liabilities shall not affect any liability incurred or contract made before such transfer, nor any suit or other proceeding then pending.

SECTION 3. Said commissioners in matters concerning streets, ways, bridges, monuments at the termini and angles of roads, guide posts, sidewalks, shade trees and drains, shall exclusively have the powers and be subject to the duties, liabilities and penalties of Selectmen and surveyors of highways.

Section 4. Said commissioners shall be sworn, and

shall receive such compensation for their services as the town may determine, and shall be subject to such instructions, rules and regulations as the town may impose by its vote.

Section 5. This act, except as provided in section six, shall take effect upon its acceptance by a majority vote of the voters of the town of Stoneham present and voting thereon at a legal town meeting called for the purpose within one year after its passage, but the number of meetings so called shall not exceed three.

Section 6. So much of this act as authorizes its submission as aforesaid shall take effect upon its passage.

Approved April 2, 1902.

#### FRANKLIN STREET.

Contrary to expectation this street has not been repaired. The abuttors (excepting four) have been paid for land taken in widening, between Pine and Summer streets, and all who have accepted the award have signed proper releases. The amount of damages paid to date is \$1,276.74, and for counsel fees \$125, making a total of \$1,401.74 expended so far from the appropriation of \$2,000 granted for that purpose.

The County Commissioners have relocated and widened the street, ratifying the widening to 50 feet between Pine and Summer streets, and have ordered the town to macadamize the street from Central square to the Melrose line before January 1, 1905. This order will be brought before the town at the annual town meeting.

#### STREET RAILWAYS.

Your Board, on petition of Charles A. Patten and others, after giving hearing, ordered the Boston and North-

ern Street Railway Company to remove its tracks from the side of Marble street and relocate them in the centre, which has been done in a satisfactory manner.

The matter of double-tracking Franklin street which we expected would be finished before this time, and give us a through service to Boston, is awaiting the action of the Metropolitan Park Commission, on petitions of the Boston and Northern and Boston Elevated Street Railway Companies for locations through the Middlesex Fells by the way of Main street and the Boulevard to Sullivan Square; should the location be granted it is probable that the double track on Franklin street would not be laid.

So far as your Board had authority a location has been granted the Boston and Northern Street Railway Company, from the B. and M. R. R. tracks, through Main street to the Medford line, and the following is a copy of said order of location.

Town of Stoneham, June 16, 1903.

IN BOARD OF SELECTMEN:

Whereas, the petition of the Boston and Northern Street Railway Company dated May 19, 1903, has been duly presented to this Board, praying for a location for extension of tracks, as follows:

Commencing at and connecting with the tracks as now laid or to be relaid in Main street, at or near the location of the Boston and Maine Railroad and continuing over said Main street to Marble street, a second track, parallel with the present track; and for the relocation of so much of the existing tracks as may be necessary to complete a double track between said points.

Also, commencing at and connecting with said tracks in said Main street, at Marble street, and continuing over said Main street to the dividing line between the town of Stoneham and city of Medford, a double track, all with the necessary curves, switches, cross-connections, etc.

Also, for the right to erect and maintain the necessary poles for the support of the overhead wire system; and for permission to operate cars over the above named locations by electricity; and public notice given by publication in the Stoneham Independent, a newspaper published in said Stoneham, May 23, 1903, and a hearing thereon held June 9, 1903, it is ordered, that public necessity and convenience require the granting of said petition; and that said Boston and Northern Street Railway Company be and it is hereby authorized to locate, lay down and construct a second track in said Main street, from the Boston and Maine Railroad location to Marble street, with the necessary curves, switches and cross-connections, and to relocate so much of the existing tracks as may be necessary to complete a double track between said points, all according to a plan to be filed with and approved by the Selectmen. It is also ordered that said Boston and Northern Street Railway Company be and it is hereby authorized to locate, lay down and construct a double track with the necessary curves, switches and cross-connections in Main street commencing at Marble street and continuing over said Main street to the dividing line between the town of Stoneham and the city of Medford, according to a plan to be filed with and approved by the Selectmen, also by the Massachusetts Highway Commission and the Metropolitan Park Commission, wherever said Commissions have jurisdiction.

It is also ordered that the right be and hereby is granted said Boston and Northern Street Railway Company to erect and maintain the necessary poles for the support of the overhead wire system and permission to operate cars over the above named locations by electricity. Said Com-

pany shall lay its tracks to conform to the grade as shown on a plan to be approved by the Selectmen or other proper authorities.

All posts, poles and other devices erected for the purpose aforesaid, shall be located with the approval of the Selectmen or other duly authorized authority, and shall be placed so as not to interfere with the public use of said highway, and all said posts and poles shall be set in a manner as not to interfere with private driveways, and shall not be set in front of entrances to public buildings or dwellings.

All electric construction shall be done by said Company in a workmanlike manner, and all poles shall be round, of chestnut wood, reasonably straight, of good sound timber and painted.

One top gain shall be reserved on each pole erected by said Company for the free use for wires belonging to the said town, and the said town shall have the right to string its wires thereon.

All poles and wires of said Company within said town of Stoneham, shall be under the superintendence of the Board of Selectmen, its duly appointed agent, or any superintendent of wires hereafter duly appointed.

The said Company shall remove such trees or parts of trees as the Selectmen shall designate at the time of the construction on said locations.

All trimming of trees shall be done under the direction of the Tree Warden, or other proper authority.

The rails, excepting as hereafter provided, shall be the style known as T rails, and to weigh not less than seventy-five pounds to the yard. Girder rails to weigh not less than ninety pounds to the yard shall be used between Montvale avenue and a point one hundred feet north of Lindenwood road, also between Hersam street and Maple street on

said Main street, and the space between said girder rails and eighteen inches outside the outside rails, shall be paved with square paving blocks. The blocks now laid down in said street may be used in the reconstruction.

Said Company shall macadamize said Main street between Winter street and Maple street and between Hancock street and the south side of Marble street, to a point twelve feet outside the outside rails wherever not paved, and shall top dress with fine crushed stone and roll with a steam roller, to the satisfaction of the Selectmen, the entire Main street, which is not paved, from the Boston and Maine Railroad to Marble street, from curb to curb.

The fare from any part of Stoneham to Medford Square shall be five cents.

School children shall be carried to and from school in Stoneham for half fare.

Said Company shall clear the snow from its tracks in such manner as may be approved by the Superintendent of Streets or other officer having authority from said town. Said Company shall use proper rolling stock and machinery and keep the same and all tracks, appliances and other property used in connection therewith, in first class order.

In case said Company shall refuse or neglect to keep its tracks, roadbed, structures and appliances in a condition safe and convenient for public travel within the requirements of the statutes of this grant of location, necessary and reasonable repairs may be made thereon under the direction of the Selectmen or Board of Public Works, and the expense thereof shall be borne by said Company.

When it shall be necessary for any person or persons to move across or along where said tracks are located, any house or other building, of such height or size as to interfere with the poles or wires of said Company, a hearing shall be held, notice of which shall be given to said Company, and the said Company shall, upon receiving at least twenty-four hours notice in writing from the Selectmen, temporarily remove the poles and wires so far as necessary to allow the passage of such house or other building, for a reasonable period of time at the expense of such party or parties as the Selectmen may determine.

The Selectmen may from time to time make such regulations as to the manner and extent of use of tracks and the number and routes of cars as the interest of the public travel may require.

Said Company shall pay all expenses and damages and save the town of Stoneham harmless and indemnified from all loss, cost, damage or expense in consequence of and arising out of the construction and operation of said railway.

Nothing herein contained shall be construed to abrogate or in any way nullify any statute rights of the town of Stoneham or duty of said Company with reference to the construction or operating of said railway.

When the tracks are relaid between Hersam street and Montvale avenue, such rails shall be used as the Selectmen at that time shall designate.

Said Company is to construct the second track on location herein granted in Main street, from the Boston and Maine Railroad to Marble street and at least one track from Marble street to Medford before October 1, 1904.

If said Company does not construct at least one track from Marble street to Medford, in Main street before October 1, 1904, then said Company shall, for a reasonable consideration, consent to the joint use of said second track from the Boston and Maine Railroad to Marble Street with any other company which may construct a street railway as herein contemplated, from Stoneham to Medford, if ap-

proved by the Railroad Commissioners and other necessary authorities.

JOSHUA T. NOWELL, HARRY E. HERSAM, LEONARD P. BENTON, Selectmen of Stoneham.

### LAW SUITS.

The case against the town of Palmer has been settled, that town paying the full amount due, which has been turned into the treasury.

A satisfactory settlement has been made with Perlie A. Dyer, he paying the sum of four hundred dollars.

#### JURORS DRAWN.

March 24, Adrian F. Moore and Walter C. Bancroft. September 22, Milton P. Weston and John F. Lamson, November 30, Thomas M. Thornton, Fred Steele, William J. Corcoran, Walter Paige and William H. Briggs,

December 1, Sumner A. Hovey and Wilson A. Bart-lett.

December 15, Henry H. Dane and Frank W. Johnson.

# POLICE DEPARTMENT.

Chief Sumner H. Green has again had charge of this department. He and his corps of able assistants have performed their duties with credit both to the town and to themselves.

To the Honorable Board of Selectmen,

Gentlemen: -I submit the following report of the work of the Police Department for the year ending December 31st, 1903:

Sumner H. Green, Chief.

In submitting my report I wish to return thanks to the Honorable Board of Selectmen, Judge Johnson and Clerk Gage of the District Court, who have so kindly assisted me in the performance of my duties.

I wish also to thank the members of the department tor

their assistance and efficient manner in which they have discharged the several duties imposed upon them.

Respectfully submitted,
SUMNER H. GREEN,
Chief of Police and Lockup Keeper.

#### FIRE DEPARTMENT.

This department has been ably handled by Chief George E. Sturtevant and his two assistants. The work done by the department at the fire on the morning of July 5, forcibly demonstrates that the town has a force of fire fighters excelled by none.

To the Honorable Board of Selectmen,

Gentlemen:—The Board of Fire Engineers respectfully submit the following report for the year ending December 31, 1903.

There has been twenty-two alarms, as follows:

- March 19. Brush fire on land of Fred Gerry and others off Pond street Cause, unknown. No damage.
- April 30. Brush fire on land of Sumner Richardson on Lindenwood road. Cause, burning brush. No damage.
- May 1. Brush fire on land of Brooks Hadley on West street. Cause, unknown. No damage.
- May 19. Fire in dwelling house in Wakefield Park owned by C. M. Ried. Cause, unknown. Loss covered by insurance.
- May 23. Brush fire on land of Johnson and others off Spring street. Cause, burning brush. No damage.
- May 23. Brush fire on land of Brooks and others off Stevens street. Cause, unknown. Damage slight.

- May 23. Fire in dwelling house on William street owned by Stevens heirs. Cause, spark from locomotive. Loss covered by insurance.
- May 25. Fire in coal shed on Gould street owned by Mrs. Hanscom. Cause, unknown. Damage slight.
- May 25. Fire in stable on Emerson street owned by W. G. Fuller heirs. Cause, unknown. Damage slight.
- June 1. Fire in shoe factory on Main street owned by F. B. Jenkins & Co. Cause, lighted cigar falling in waste paper. Damage slight.
- July 4. Fire in spring house off Spring street owned by Barre Savings Bank. Cause, incendiary. Loss \$500.
- July 5. Fire originated in stable on Block street owned by Seth A. Emery and occupied by Hayward & Litch Express Company and destroyed nearly all the buildings in the block bounded by Central, Emerson, Fuller and Block streets, endangering the whole district around Central square, causing a loss of some \$20,000, partially covered by insurance. Buildings to the value of \$100,000 were on fire at one time, but owing to the hard work of the department assisted by citizens and out of town departments, the fire was got under control with a comparatively small loss.

October 19. Fire in block on Franklin street owned by Sanford Benton. Cause, overturning a lighted lamp. Damage slight.

P. Doucett. Cause, unknown. Damage slight.

October 23. Fire in stable on Common street owned by Lucy J. Caswell. Cause, boy playing with matches. Damage slight.

November 3. Brush fire on land of Meegan and others. Cause, burning brush. No damage.

November 14. Brush fire on land of Wiley heirs on North street. Cause, unknown. Damage slight.

November 18. Fire in stable on Summer street owned by A. S. Lynde. Cause, overheated stove. Loss \$250, insured.

December 8. Fire in dwelling house on Wright street owned by Mrs. Skinner. Cause, unknown. Damage slight.

December 11. Brush fire on land of Dennis Daley on Collincote street. Cause, burning brush.

December 24. Fire in dwelling house on Wright street owned by Mrs. Harrison. Cause, overturning of lighted lamp. Damage slight, insured.

During the year property to the value of \$292,435 has been endangered by fire, on which there has been a gross loss of \$21,322.52. Insurance has been recovered to the amount of \$13,087.02, leaving a net loss of \$8,235.50.

There has been used at fires during the year 10,150 feet of hose and 520 feet of ladders.

Some hose damaged at the fire of July 5th, and some from long service rendered unfit for use, should be replaced at once, and we would recommend the purchase of 1000 feet of new fire hose.

The several rooms used by the department are in very good repair.

The E. R. Seaver hose house will need repairs this year as the sills are decayed and the building is settling.

The fire apparatus is in very good condition with the

exception of the hose carriage of engine one which has been in service some 15 years, and while it was a good carriage for what it was built for, it is too light and small for the present needs of the department, and we would recommend the purchase of a combination hose wagon large enough to supply the needs of the department.

We wish to thank the members of your Honorable Board for the assistance and encouragement given us in the discharge of our duty during the year.

To the officers and members of the several companies we extend our sincere thanks for the willing and efficient manner in which they have performed their duty.

Our thanks are also due the Police department for their aid rendered at fires, and to the citizens of the town for their generous support during the year.

Respectfully submitted,

G. E. STURTEVANT, L. F. BRUCE, ALBERT J. SMITH,

Engineers Stoneham Fire Department.

#### ARMORY.

This building has been thoroughly overhauled and at the present time is in excellent condition. We have installed electric lights on the stage which will be appreciated by all.

#### IN CONCLUSION.

We extend our thanks to the several departments and the citizens of the town for their generous co-operation with us in performing our duties.

> JOSHUA T. NOWELL. HARRY E. HERSAM. LEONARD P. BENTON.

# REPORT

OF THE

# Commissioners of Public Works.

TO THE CITIZENS OF STONEHAM:

The following is the report of the Commissioners of Public Works for the year ending December 31, 1903.

This Board was elected on March 30, 1903, and organized on March 31. The previous months of this year, the Highways were under the control of the Board of Selectmen, and the Sewer and Water Departments were administered by separate Boards.

#### HIGHWAYS.

The streets of Stoneham as a rule are not in first class condition and will not be until sufficient money is appropriated so that they can be properly taken care of. approximately 50 miles of streets in the town, a \$5000 appropriation will not go very far. We consider that our Superintendent has shown as good results as possible with what he has had to do with. We refer you to his report. which accompanies ours, for detailed account of work done on the various streets in town, and wish particularly to call attention to the fact that crushed stone should be used in road building in Stoneham for cheapness and durability, as it costs practically the same amount of money to put gravel on the streets of Stoneham as rock would cost, and we have no good gravel in town. This matter has been put before the citizens many times and they should realize the position fully.

We should have a modern, portable stone-crusher to

get the best results at the minimum of cost, and instead of being expensive, it would be economy. The maximum cost of a stone-crusher such as we would recommend is about \$2000, and we would be allowed about \$800 for the old plant, making the net cost about \$1200. The same is true in the matter of a road machine. It is not possible for a community to do business with antiquated machinery, any more than a private business concern could, and what the town has at present would have been discarded long ago by individuals. The cost of a road machine such as we recommend is \$235. We would be allowed \$35 for our old machine, making the net cost \$200.

It is necessary that the Department have an additional watering cart, particularly as Franklin street will, without doubt be macadamized during the ensuing year, and a watering cart should be on the work continually, which would allow the old cart to take care of the streets during the summer season. We rented a new cart this past season for \$50; purchase price of same is \$350. Arrangements were made with the venders, allowing the rental to apply on the cost, so that the net cost to the town, should they purchase the same will be \$300. These matters should be looked at from a business standpoint and no other, and this Board recommend that the town do purchase a portable stone-crusher, a modern road machine and a watering cart.

# FRANKLIN STREET.

No work on this highway has been done, although it has been in very bad condition, as the Boston and Northern Railway Company have taken no steps to double track their line from the Square to the Melrose line, although the franchise originally granted called for completion of this work and cars to run by July 1, 1903. Two extensions have

been granted them by the Board of Selectmen, having such matters under their jurisdiction, the limit of the last extension from Pine street to Melrose line, has August 1, 1904, as the time for completion. Franchise from Central Square to Pine street, which was limited to November 15, 1903, has apparently lapsed and no extension been granted.

The County Commissioners, upon petition of citizens of Stoneham, have had a survey made, including as part of the county road Franklin street between Pine and Summer streets. This makes Franklin street entire a county road. They have also allowed the sum of \$2500 to be paid by the county to the town of Stoneham to help defray cost of macadamizing this street to the Melrose line, which they ordered after inspection of same. Their order herewith annexed.

This Board has taken up the matter with the State Highway Commission to endeavor, it possible, to obtain financial assistance from that point.

We would particularly call your attention to our Superintendent's suggestions in regard to the condition of both Chestnut street and Montvale avenue. These two streets should be put in proper condition, and a special appropriation should be made for same.

COMMONWEALTH OF MASSACHUSETTS.

MIDDLESEX, SS.

At a meeting of the County Commissioners for the County of Middlesex, holden at Cambridge, within and for said County, on the first Tuesday of January, in the year of our Lord one thousand nine hundred and four.

The inhabitants of Stoneham in said County, by their petition to said Commissioners—among other matters—pray that Franklin street, from Stoneham square to the boundary line between Melrose and Stoneham, may be altered or specifically repaired, as will more fully appear,

reference being had to the petition filed of record in the case.

The petition was presented to the County Commissioners at their meeting holden at Lowell, within and for said County, on the first Tuesday of September, A. D. 1903, when and where said Commissioners caused notice to be given to all persons and corporations interested therein, of the time and place when and where they would meet, for the purpose of viewing the premises and hearing the parties, as by the notice on file and of record will more fully appear. And at an adjourned meeting it was adjudged that a relocation and alteration of a portion of said way was of common convenience and necessity, and that specific repairs of the remainder of the said highway might supercede the necessity of an alteration thereof, and thence said petition has been continued to this time.

And now the said Commissioners make return of their proceedings in the premises, as follows: Said Commissioners having given notice as the law directs, met at the Selectmen's room in said Stoneham, on the fourth day of January, in the year nineteen hundred and four, when and where the parties appeared to wit, the petitioner by Arthur B. Jenney, M. D., and others and no person appeared to object.

And the premises having been examined, and all parties fully heard, said Commissioners proceeded to relocate or alter portions of said street and to order specific repairs on the existing highway to supercede alterations thereof. The lines of said highway as hereby established are shown by a plan entitled, "Plan of Franklin street, Stoneham, as laid out by the County Commissioners, January, 1904, Scale 40 feet to an inch." The said plan shows existing lines from Main street to Pine street, the lines established by the town from Pine street to Summer street, which lines are re-estab-

lished by this decree, except that at the junction of Summer street said Commissioners do now order an alteration which is as follows, viz:—The northerly line beginning at a point in the northerly line as established by the town, said point being near the property line between C. H. Brown and C. A. Carby and distant westerly measured on said northerly line 90 feet from the intersection point of the line shown in red on the plan and the line in blue on said plan which bears South 81 degrees 30 minutes East, thence from said point on a curve bearing to the left with such radius as will connect the said intersecting lines and be tangent thereto, the length of the tangents being 90 ft. and as shown by the plan.

The said northerly line is to connect with the westerly line of Summer street with a curve of 14 5-10 feet radius and with the easterly line of said Summer street with a curve of 9 feet radius. The southerly line is to connect with the westerly and easterly lines of Summer street with curves of 5½ feet and 48 feet radii respectively.

From Summer street to the Melrose line with the exception of the alterations as above described at said Summer street, the above described plan shows substantially the lines established by the County Commissioners by decrees made in 1897, in 1892 and in 1874, and the lines as shown by said plan are the lines hereby established as and for the lines of said highway, the previous locations being corrected and made certain by said plan, which plan is to be taken as a more particular description of said highway as hereby relocated and established. Stone bounds shall be placed wherever necessary to permanently mark said lines.

And the said Commissioners determine and order that the inhabitants of the said town of Stoneham shall, on or before the first day of January, which will be in the year 1905, lay open, construct and complete said highway, so that thirty-four feet in width thereof throughout the whole shall be safe and convenient for the passage of teams of every description with customary loads. The centre of the travelled part shall be the centre of the location. The form and manner of construction shall be as follows: The grade of the center of said highway shall be established by a profile or grade plan which shall be satisfactory to the Commissioners.

Between the curb lines (at least seven feet being reserved for sidewalk on each side) the street shall be macadamized six inches in thickness. The said roadway shall be properly crowned, drained and graded, the sub-grade underneath the macadam to be of suitable gravelly material rolled and compacted. The macadam shall consist of a first course of broken stone, hard and durable, of  $1\frac{1}{4}$  inches to  $2\frac{1}{2}$  inches in size rolled, and a second course of hard durable stone of  $1\frac{1}{4}$  to  $\frac{1}{2}$  inches in size, thoroughly rolled and finished with stone dust. The whole to be done in a workmanlike manner.

And the proprietors or occupants of the land 'over which said highway is thus laid out, are allowed until the first day of May, next, to remove therefrom any wood, timber, trees or other property. And said Commissioners having heard the proprietors of said lands by themselves or their agents on the subject of damages by them sustained by reason of laying out said highway, have estimated the same as follows, to wit:—C. A. Carby fifty dollars (\$50;) Daniel Geary twenty dollars (\$20;) C. C. Smith one dollar (\$1.)

And the said Commissioners further order and determine that the sum of twenty-five hundred dollars is a fair and just proportion of the expenses of said alterations to be paid by the County, and said sum shall be paid out of the

County treasury into the town treasury of Stoneham whenever the Selectmen of said town shall present a certificate certifying that all claims by reason of said alterations have been settled and said street shall be completed to the acceptance of said Commissioners.

And the said Commissioners further determine and order that the said town of Stoneham shall pay all damages, costs and expenses, if any, not included in the above award, that any party may by legal process obtain in consequence of said alterations and specific repairs throughout the whole of said highway, as hereby widened, straightened, altered and established; that the highway described in said return be, and the same is hereby, established as and for a public highway, and that the same be recorded to the end that the same may hereafter be known as such; that the said several sums of money estimated as damages to the said persons by reason of the premises, be paid to them respectively out of the town treasury, when they shall present to the Town Treasurer a certificate signed by the Selectmen of the town in which the land lies, that the land over which said highway is located has been entered upon and possession taken for the purpose of constructing said highway.

In witness whereof, we, the said County Commissioners, have hereunto set our hands this sixth day of January, in the year of our Lord one thousand nine hundred and four.

LEVI S. GOULD. SAM'L O. UPHAM. FRANCIS BIGELOW.

A true copy of record. Attest, WM. C. DILLINGHAM, Ass't Clerk.

DRAINS.

There are a large number of public drains which should

receive attention each year. It has been customary to take the money for these repairs from the regular highway appropriation, which is so small that it will not admit of any cutting without detriment to the streets. We feel that a separate appropriation should be made for the maintenance of public drains.

#### CATCH BASINS.

Some time ago the Sewer Commissioners, at the request of the Selectmen, laid a number of surface drains for the purpose of draining some of the bad streets. Connection with these drains has never been made. Basins should be built at these points and an appropriation made for their construction.

#### STREET RAILINGS.

Railings have been built in the most dangerous places, but there remain a great many more which should be built.

#### CONCRETE.

The sidewalk and crossings between the old high school house and the new high school house have been built; also the walk on the north side of Franklin street from Central square to Pine street, caused by the vote to relocate the curbing at this place. The regular repairs on sidewalks, gutters and crossings have also been made.

#### GUIDE BOARDS.

New guide boards have been placed where needed and a number replaced during the year.

# SHADE TREES.

A number of dead trees have been removed and some trimming has been necessary. In some cases the electric

wires passing through the trees have caused the tops to die and have burned the limbs which had to be removed. There should be some method devised for the better protection from electric wires.

#### SEWER DEPARTMENT.

#### Construction.

The past year there has been constructed 1066 feet of 8 inch and 804.5 feet of 6 inch sewer and 102 feet of 5 inch underdrain on Maple street, together with 536 feet of 6 inch sewer and 498 feet of 5 inch underdrain on Marble street. The total cost of these extensions was three thousand three hundred eighty-seven dollars fifty-nine cents (\$3,387.59) or about one dollar twelve and one half cents (\$1.12½) per foot.

#### House Connections.

There have been forty-two (42) connections made during the year, aggregating two thousand five hundred fifteen (2515) feet at a cost of one thousand three hundred seventy-one dollars six cents (\$1,371.06) at an average cost of fifty-four (54) cents per foot. This makes a total of 463 connections constructed as per table:

YEAR	FEET	COST	PER FT
1896	2535	\$1,499.48	<b>\$.</b> 59
1897	3368	1,774.35	.52.60
1898	3229	1,373.33	.42.52
1899	3184	1,571.10	.49.75
1900	4349	2,325.00	.53.70
1901	2721	1,500.24	.55.10
1902	2469	1,285.67	.52
1903	2515	1,371.06	.54.51
Avaraga	nor foot		59 30

#### WATER DEPARTMENT.

#### MAINS.

The past year but one extension has been made. Six hundred twenty-four (624) feet of 6 inch cast iron pipe has been laid on Summerhill street at a cost (including one hydrant) of \$841.70. There has also been one hydrant set on Gerry street near Main street.

#### SERVICES.

There has been seventeen (17) new services laid the past year and fifty-nine (59) old services relaid, a total length of 3492 feet at a cost of \$1,334.94, the average cost being 38 cents per foot.

# HYDRANTS.

We wish to call the attention of the citizens to the need of additional hydrants on Franklin street. In view of the fact that Franklin street is to be macadamized, hydrants should be put in at Highland ave., Stevens street, and Isabella street, also one at Pond street and Summer street and thus prevent the necessity of reopening Franklin street.

This department is unable to show its exact earning capacity from the fact that a large amount of water is used by other departments for which the water department receives no credit. All water used by the schools, engine houses, armory, street watering, sewers and drinking fountain, this department furnishes and receives nothing therefor. While the department at present is self-supporting it would seem right to allow these credits and thus make an actual showing of each department.

# SUPERINTENDENT'S REPORT ON HIGHWAYS.

TO THE COMMISSIONERS OF PUBLIC WORKS.

Gentlemen: I respectfully submit the following report of the Highway Department for the present year beginning April 21, 1903.

#### EUSTIS STREET.

This street was in a bad condition. The low places have been filled with blasted rock, gutters cleaned, street shaped up with road grader, top dressed with good, fine gravel and rolled, and is now in fairly good condition. But something should be done in caring for the water from this street, as it formerly passed under Spring street to an open drain on private property, and the party owning the land has stopped up the drain and forbidden its being opened.

# GREEN STREET.

From Spring street to the stand pipe was rebuilt with the road grader.

# HANCOCK STREET.

This street was graded with gravel and rolled, from Congress to Warren street and from Pond to Summer street; also at its junction with Pine street. In accordance with the appropriation, the north sidewalk between Lincoln and Park streets was completed.

# LINCOLN STREET.

This street was graded from Marble st. to Everett st. with gravel taken from Marble street, at the expense of the Boston and Northern Street Railroad.

#### MAPLE STREET.

This street was graded with gravel and rolled with the steam roller, from the Boston & Maine Railroad to the Woburn line. Later a part of this work was torn up for the building of the new extension of sewer, which necessitated the rebuilding of the street and the outlay of more money. It also necessitated an expenditure for repairs from Park street to the railroad.

#### PARK STREET.

This street, from Marble to Winthrop street, was graded with gravel taken from Marble street by the Boston and Northern Street Railroad at their expense.

## SPRING STREET.

From the Boston & Maine Railroad to the School House was graded with gravel and rolled; from Rufus B. Chapman's to East street was rebuilt with road grader.

#### TIDD STREET.

This street was graded with gravel and rolled, from Pine street nearly to the Old Town Hall.

#### WRIGHT STREET.

This street was graded with gravel and rolled from Hancock to Warren streets, thus covering up a lot of points of ledge projecting above the surface, which were dangerous.

#### SLIGHT REPAIRS.

Have been made on the following streets, viz: Church, Emerson, Flint, Gould at its junction with Pleasant, High, Lindenwood Road, Main, Minot, Park, Perkins, Pond, Stevens, Summer, Washington and Winthrop. Main, being the main street of the town, should have received more attention, but with the prospect of its being double tracked in the near future, it seemed an unnecessary expense to make any improvement at present.

# FRANKLIN STREET.

This street is perhaps in the worst condition of any street in town, but until the Boston and Northern Street Railroad do their work, it would be useless for the town to expend any money on this street

#### STATE HIGHWAY.

Slight repairs were made on this road and the town will be reimbursed for the same.

# MONTVALE AVENUE.

From Main to Chestnut street was lightly graded with broken stone on the north side and with blasted rock and gravel on the south side and rolled, and is now in safe condition. This avenue is very difficult to keep in repair, and always will be, owing to its narrowness, obstructed by trees and steep grade causing the water to run in a zig-zag manner. This could be overcome by paving from curb to curb, or by removing the trees and narrowing the sidewalks, macadamizing and paving gutters and some under drainage. I recommend a separate appropriation for this avenue.

# MARBLE STREET.

This street has been thoroughly rebuilt from Main street to the Winchester line, the Boston and Northern Street Railroad having first relocated its tracks from the side to the centre, with rails weighing 75 lbs. to the yard, laid to proper grade; all poles set to curb line and the street

widened to 36 ft. from curb to curb its entire length. This leaves a driveway of 15 ft. 7 inches on either side of tracks, which has been macadamized in a thorough manner at the town's expense; between the rails was surfaced and rolled, in connection with the town's work at the railroad's expense, thus completing the work all alike; and with little more rolling in the spring, completing sidewalks and draininge, this street will be put in a first class condition.

#### STREET CLEANING.

This work has been done to some extent in Central square and along Main street and the gutters throughout the town. This is very important as it means a considerable saving to the street. For this work I would recommend the purchase of a patrol cart, as one man thus equipped could do the most of such work at a very small cost.

#### CONCRETE WORK.

New work has been done on the following streets, viz: Common, Elm, Franklin, Pine, Pleasant, and William. Repairs have been made on the same streets, also on Central, Gould, Hancock, Lincoln, Summer and on Harrison and North avenue.

# NEW EDGESTONES.

New edgestones have been set on the following streets, viz: Corner of Common and Pine, 30 ft; south side of Franklin between Central square and Pine street, 392 ft.; corner of William and Pleasant, 54 ft.

Edgestones have been reset on the north side of Franklin street from Central square to Pine street, 698 ft.; south side of Franklin street between Central square and Pine street, 240 ft.

#### STREET RAILING.

New railings have been placed on the following streets: Elm between Central and Collincote streets; Green at premises of Erastus A. Durgin; Marble near Winchester line; Montvale avenue at premises of D. T. Strange; Pine between Franklin and Hancock.

## STREET WATERING.

This work has been done in a very satisfactory manner the past season, but we were obliged to hire another cart for use on construction work, and I would recommend the purchase of the same.

#### DRAINS.

Although there has been considerable work done along this line, still there remains much to be done, and I recommend a separate appropriation for this work.

#### CHESTNUT STREET.

This street is in a very bad condition and something should be done here as soon as possible in the way of grading and properly caring for the water. I would recommend a separate appropriation for this street, knowing the importance of systematic road building, and that when people realize the expensiveness of bad roads, they will demand the cheapest roads, which are good, hard roads that can be used with facility every day in the year. Bad roads are a heavy tax upon the people who use them, and the tax falls most heavily upon the teamsters and producers. Good roads once paid for, are a perpetual saving to travel and transportation.

#### ROAD GRADER.

In order to have good roads one must have good machinery, and the old road machine now owned by the town being out of date, I would recommend the purchase of a new up-to-date machine, in order that the best results may be obtained at a minimum of cost.

#### STONE CRUSHER.

This should always be located as near as possible to the work, thus saving the big expense of teaming, and if managed properly, broken stone can be placed on the streets cheaper than gravel, especially as there is no gravel available here in Stoneham.

The gravel used this season cost about \$1.75 per double load on the street, and in the building of Marble street, the broken rock cost about \$1.00 per ton, or \$2.00 per double load, rolled on the street, According to these figures I would advise that no more gravel be used on the travelled streets, as rock is more economical and makes a much more enduring road. I would recommend the purchase of an upto-date, steel, portable (and I mean portable as there are many so called which are not) crushing plant, which can be more quickly moved, with much less expense, from place to place, and would produce with the same number of men and and the same cost, from 25 to 35 tons per day more than the present plant.

#### ROAD ROLLER.

This is one of the most important pieces of machinery for road building, and the towns which use it the most with a competent man in charge, have the best roads. We were very fortunate in securing the services of a competent engiwho did excellent work during the season.

I also wish to recognize the good services of foreman Charles H. Taylor.

Respectfully submitted, GEORGE II. SPATES, Superintendent.

#### SUPERINTENDENT'S REPORT ON SEWERS.

To the Commissioners of Public Works,

Gentlemen: I submit the following report of the Sewer Department beginning April 21st, 1903.

The entire system has been thoroughly cleaned and the regulators inspected monthly. There has been some little trouble with the underdrains, caused by tree roots, but nothing of a serious nature. All complaints have been promptly investigated and repairs made when necessary, and the system is generally in good condition. For particulars see clerk's report.

Respectfully submitted, GEO. H. SPATES, Supt.

#### SUPERINTENDENT'S REPORT ON WATER.

To the Commissioners of Public Works,

Gentlemen: I submit the following report of the Water Department beginning April 21st, 1903.

This has been a very busy department, with the new work, extension of main on Summerhill street, inspection of fire hydrants and the ordinary repairs which are necessary to the maintenance of a first class water service.

There has been but two breaks in the main pipes the past season, one on Hersam street and the other on Pond street, and but three leaks on mains, one under the B. & M. R. R. tracks at Farm Hill, one at Wakefield Park and one on Pine street. None of them caused any serious damage.

For a detailed account of the work see clerk's report.

Respectfully submitted,

GEO. H. SPATES, Supt.

W. S. KEENE,
J. A. JONES,
WILLARD MASSEY,
Commissioners of Public Works.

#### RÉPORT

OF THE

## TRUSTEES OF PUBLIC LIBRARY.

TO THE CITIZENS OF STONEHAM:

The Trustees take pleasure in reporting the continued and increasing success and usefulness of the Public Library.

As a potent educational factor it ranks with the Public Schools, for while the latter give more thorough and systematic education to the young, the former offers endless opportunities to all regardless of age or condition. In order that the work of the schools may be aided and supplemented, and also that the library may be able to meet the demands of others than students, the Trustees have endeavored in the selection of new volumes to make additions to all departments of literature, and although the fiction list is usually and necessarily the longest, works of history, biography, travel, science and arts have not been neglected. With some people the desire for new fiction has become almost a mania, and the ability to say "I have read it" in

regard to the latest novel gives great satisfaction, and seems to be considered by them a password to the ranks of scholars and literary critics. However, it is well to remember that many an older book contains material enough to furnish forth a dozen modern frothy bubbles, and then have enough left to make it a really valuable book. Much care should be exercised in the selection of book friends as well as human friends. We would recommend to the young people the really excellent practice of keeping a list of all the books read, and then, at the end of the year, looking it over and considering which ones have really made any lasting impressions of pleasure or profit, and which were really worth while.

The fact which is of prime importance in the annals of our institution is that at last we have a new library building. The gift of fifteen thousand dollars (\$15,000) from Mr. Andrew Carnegie and the appropriation made by the town have furnished the means for erecting a new building on the corner of Main and Maple streets for the accommodation of the library. This building contains a stack room for about twenty thousand volumes, a commodious delivery room, a reading room for adults, and one for children, with additional rooms in the basement. With a fire-proof preparation beneath the floors, a steel curtain to entirely shut off the stack room from the rest of the building, and steel stacks for the books, we may feel reasonably secure from any loss by fire. It is a building of which we may all be proud, and we should all congratulate ourselves that a dream of the past has become a realization of the present.

Stoneham was one of the first towns in the state to take advantage of the law allowing towns to tax its citizens for the support of a public library. Forty-five years ago the library was established, and through the efforts of a number of public-spirited citizens, and the generosity of the Social Library Association, the Young Ladies' Circle, and the Philomathean Society, 1450 volumes were collected and placed in a suitable room for the use of the public. A boon indeed in the days when a new book was a luxury, and most of the private libraries contained but a few well-worn volumes, which were read and re read many times. Three times since its establishment the library has outgrown its quarters, necessitating three removals, but in a few months it will be moved once again, and this time to a permanent abiding place.

No new word can be said in regard to the librarian Mrs. H. M. Boyce and the associate librarian Miss S. A. Lynde, who both work efficiently and faithfully for the best interests of the library and its patrons. We regret that during the past year Miss Georgie A. Richardson has on account of other duties, been obliged to resign from the Board of Trustees. In her capacity of treasurer she rendered efficient service, and on account of her interest in the welfare of the library, and her good judgment, she is a loss to the board.

The circulation of books during the year 1903 was as follows: Magazines, 957; philosophy and religion, 178; sociology, 174; natural science, 463; useful and fine arts, 277; literature, 408; history, 681; travel and description, 412; biography, 447; fiction, 18,863. Total circulation, 22,860.

For the ensuing year the Trustees recommend the following appropriations:

and the property of the proper	
For Moving and Incidental Expenses: the unex-	
pended balance of last year's appropriation,	
dog tax and	
For Purchase of New Books	300.00
For Reading Room Expenses, Periodicals, etc.	150.00

#### REPORT

OF THE

## OVERSEERS OF POOR.

TO THE CITIZENS OF STONEHAM:

The Overseers of the Poor beg to submit for your consideration the report of their doings for the year ending Dec. 31, 1903. It is a cause for congratulations on the part of our citizens that your Board have been able to retain the services of Mr. and Mrs. Hiram H. Lufler at the almshouse and farm. All the property coming under their

charge has been cared for as though it was their own, and a large part of the good showing in the receipts from the farm is due to the careful and faithful service rendered by the Superintendent and Matron.

One death occurred during the year. John Robinson died November 29, 1903.

All the farm buildings should be painted the coming season and we recommend a special appropriation for this purpose. From our regular appropriation this year we have had to shingle the barns. Notwithstanding this special expense, our financial showing compares favorably with last year. For the detailed statement of the receipts and expenditures we beg to refer to the report of the Auditors.

The whole number of persons cared for during the year appear below, with the disposition of each case.

No.	Name.	Age.	Admitted.	Ended.
3	Samuel Gerry,	70	Dec. 2, 1858.	Continues.
5	Leander F. Goodwin,	67	June 6, 1881.	6.6
80	Maggie W. Bailey,	44	Nov. 17, 1883.	64
141	George W. Cowdrey,	57	Feb. 6, 1892.	66
156	Joseph H. Bryant,	78	Oct. 21, 1893.	Died Jan. 16, '03.
187	Patrick Thornton, .	75	Dec. 4, 1896.	Continues.
201	Elbridge Goodnow.	90	Sept. 21, 1899.	66
205	John B. Clough,	62	Dec. 4, 1900.	44
212	John Robinson,	71	July 12, 1902.	Died 1903.
213	Imogene Thompson,	53	July 10, 1903.	In private family since Oct. 8, '03.

#### MINOR CHILDREN.

We have no minor children under our care.

#### OUTSIDE RELIEF.

There has been quite a large increase in the number of cases requiring assistance during the year, and especially in the last few months, on account of the severe cold.

The Board extend their thanks to the many benevolent societies who have rendered substantial aid during the year.

The disposition of the insane supported by the town appears below.

#### INSANE.

Mary Russell at Worcester. Ellen Daley at Danvers. Hattie A. Chase at Danvers. Margaret Murphy at Danvers. Wayland W. Elliott at Danvers. William J. Theobald at Danvers. Josiah M. Swett at Danvers. Hannah M. Nelson at Danvers. Charles Dotey at Medfield. . Richard Barnstead at Medfield. Alice E. Murphy at Westboro. Arba A. Clark at Wellesley. Leon Gay at Wellesley. Mary Sullivan at Danvers. Bridgett Chase at Danvers. Hattie A. Grant at Danvers died February 5, 1903. William J. Battles at Danvers died March 12, 1903. JOHN W. CAWLEY, JOHN G. BEEDE, WILSON A. BARTLETT,

#### TOWN PHYSICIAN'S REPORT.

Overseers of the Poor.

To the Overseers of the Poor.

Gentlemen: I would submit the following report for the year ending January 1, 1904.

It is well for the town that you were able to secure the

services of the same parties both on the farm and in the house. It is a great aid to the Town Physician to have a matron in charge who exercises good judgment under trying circumstances.

	Poor Farm.	
No Births.	One Death.	61 Visits.
	Outside Poor.	
One Birth.	No Deaths.	225 Visits.
	Yours Respectfully, A. H. COWDREY	7, M. D.

## REPORT

OF THE

## Sealer of Weights and Measures.

TO THE CITIZENS OF STONEHAM:

I herewith submit the following report for the year ending December 31, 1903.

#### REPORT

OF THE

## TREE WARDEN.

TO THE CITIZENS OF STONEHAM:

I respectfully submit the following report.

I have cared for the trees wherever necessary, removing some and trimming others. The appropriation has not been expended, as will be seen by the Auditors' report.

I wish to thank the citizens for their support during the year.

WALTER H. GEORGE, Tree Warden.

# TOWN WARRANT.

# COMMONWEALTH OF MASSACHUSETTS. MIDDLESEX. SS.

To John C. C. Small, or either of the Constables of the Town of Stoneham, in the County of Middlesex. GREETING:

In the name of the Commonwealth of Massachusetts, you are directed to notify and warn the inhabitants of the Town of Stoneham qualified to vote in elections and town affairs, to meet in the Armory Hall in said town, on

## Monday, the Seventh day of March,

A. D. 1904, at six o'clock in the forenoon, to act on the following articles of this warrant.

Article 1. To choose a Moderator to preside at said meeting.

Article 2. To choose a Town Treasurer, three Selectmen, three Assessors, three Overseers of the Poor, three Constables, two Auditors, Tax Collector, Tree Warden and one Trustee of the Public Library, all for one year; also one Park Commissioner, one School Committee, one member of the Board of Health and two Trustees of the Public Library, all for three years; also one Trustee of Lindenwood Cemetery for four years and one Trustee of Lindenwood Cemetery for five years; also to vote "Yes" or "No" in answer to the question, "Shall licenses be granted for the sale of intoxicating liquors in this town?" all on one ballot, in accordance with votes of the town, and the Revised Laws of Massachusetts.

Article 3. To choose all other necessary Town Officers for the year ensuing.

Article 4. To hear the reports of Town Officers and Committees, to act thereon and to choose Committees.

Article 5. To raise such sums of money as may be necessary to defray town charges, for the year ensuing, and make appropriations for the same.

Article 6. To see what sum of money the town will vote to raise and appropriate for repairs and decoration of soldiers graves for the year ensuing.

Article 7. To see what sums of money the town will vote to raise and appropriate for purchase of books, and for the support of the Free Public Library and Reading Room for the year ensuing.

Article 8. To see in what manner the town will appropriate the money received for licenses of dogs.

Article 9. To see if the town will appropriate the sum of three thousand seven hundred and eighty-five (3785) dollars for the furnishing of the Free Public Library Building and for grading the lot on which said building is erected; also to pay the incidental expenses incurred in the erection of said building, or do anything in relation thereto.

Article 10. To see if the town will authorize the Treasurer to borrow any money appropriated at this meeting, for the furnishing of the Free Public Library Building, and for grading the lot on which said building is erected; also for the incidental expenses incurred in the erection of said building, or do anything in relation thereto.

Article 11. To see if the town will authorize its Treasurer to hire money for the use of the town, under the direction of the Selectmen.

Article 12. To see if the town will authorize its Collector to use all means of collecting taxes, which the Town Treasurer may use when appointed Collector.

Article 13. To hear the order of the County Commissioners on the relocation and widening of Franklin street, to act thereon, and to appropriate money for the purpose of carrying out said order.

Article 14. To see what action the town will take in relation to the unsettled claims for damages, caused by the relocation and widening of Franklin street.

Article 15. To see if the town will vote to accept the list of Jurors as revised by the Selectmen.

Article 16. To see if the town will vote to grant the free use of Armory Hall to Post 75, G. A. R., six evenings in the coming year when not otherwise engaged.

Article 17. To see if the town will vote to water the streets of the town, or any of them, or do anything in relation thereto.

Article 18. To see if the town will vote to fix the time for allowing

discounts on taxes, and also fix the time when uncollected taxes shall go on interest, fix the rate of discount to be allowed, and the rate of interest to be charged, and take such other action as may be necessary in relation thereto.

Article 19. To see if the town will vote to exchange the Stone Crusher for a new Portable Stone Crusher, make an appropriation for the same, or do anything in relation thereto.

Article 20. To see if the town will vote to purchase a Road Machine and make an appropriation for the same.

Article 21. To see if the town will vote to purchase a Watering Cart for the use of the town and make an appropriation for the same.

Article 22. To see if the town will appropriate the sum of fifteen hundred dollars for maintenance of the sewer system the year ensuing.

Article 23. To see if the town will vote to have the drain running northerly from Summer street, crossing Hancock and Franklin streets, through the Gould Meadow (so called) and continuing until it intersects with the Cemetery brook, cleaned, and make an appropriation for the same.

Article 24. To see if the town will vote to locate and build catch basins in the following streets: Two at the corner of Pine and Gould streets, one at the corner of Pine and Common streets, one at the corner of Pine and Tidd streets, two on Tidd street and one at the corner of Gould and Pleasant streets, and make an appropriation for the same.

Article 25. To see if the town will vote to locate hydrants as follows: Five on Franklin street, at the junctions of Pond, Summer, Stevens and Isabella streets and Highland avenue; also one at junction of Central and Block streets; also one at junction of Prospect street and Washington avenue, and make an appropriation for the same.

Article 26. To see if the town will vote to increase the pay of each member of the fire department fifteen dollars per annum, make an appropriation for the same, or do anything in relation thereto.

Article 27. To see if the town will vote to purchase one thousand feet of hose for the fire department, and make an appropriation for the same.

Article 28. To see if the town will vote to purchase a Combination Hose Wagon for the fire department, make an appropriation for the same, or do anything in relation thereto.

Article 29. To see if the town will vote to locate a fire alarm box at or near the junction of George and North streets, and make an appropriation for the same.

Article 30. To see if the town will vote to paint the old high school building and make an appropriation for the same.

Article 31. To see if the town will vote to shingle the south and east schoolhouses and make an appropriation for the same.

Article 32. To see if the town will rebuild and lower the culvert on Perkins street and make an appropriation for the same.

Article 33. To see if the town will vote to construct a gravel sidewalk on the easterly side of Washington street, between Myrtle and Avon streets, and make an appropriation of seventy-five dollars for the same.

Article 34. To see if the town will vote to build a gravel sidewalk on Stevens street, from Gould street southerly to Franklin street, and make an appropriation for the same.

Article 35. To see if the town will vote to concrete the sidewalk on the northerly side of Flint avenue, from Main street westerly to the westerly bound of the lot occupied by the Armory building, set edgestones for the same, and make an appropriation therefor.

Article 36. To see if 'the town will vote to repair the sidewalk on the southerly side of Winter street, set edgestones for the same under the provisions of Chapter 49 Section 43 of the Revised Laws, and make an appropriation for the same.

Article 37. To see if the town will vote to substitute macadam or brick for concrete, for all new sidewalks hereafter laid, and for all old sidewalks when relaid.

Article 38. To see if the town will vote to purchase the electric lighting apparatus installed in the Armory and belonging to Frank S. Head, and make an appropriation for the same.

Article 39. To see if the town will vote to establish a number of drinking fountains for man and beast, one at the junction of Main and Marble streets, one at the junction of Main and William streets, one at the junction of Elm and Washington streets, and such other locations as may be deemed advisable, and make an appropriation for the same.

Article 40. To see if the town will vote to instruct the Town Treasurer to pay over to the heirs of Walter K. Foster, or their assigns, the one hundred and twenty-five dollars now in the town treasury, being the surplus accruing from a sale for unpaid taxes, of a house lot at the corner of Marble and Warren streets; or what action it will take in the matter.

Article 41. To see if the town will appoint a committee to investigate and report at a subsequent town meeting, as to the advisability of leasing a part of the old Town Hall building for the use of the Grand Army of the Republic, and for a Memorial Hall, or what action the town will take in the premises.

Article 42. To see what action the town will take to lessen the expense for legal advice and services for the town.

Article 43. To see if the town will authorize the Selectmen to petition the Legislature for authority to pay Hattie M. Chamberlain the sum of thirty-nine dollars and sixty-three cents, being the amount of taxes paid by her in Stoneham from 1890 to 1902 inclusive, on land which she did not own.

Article 44. To see if the town will vote to lay a water main in and through Ledge street, from Maple street southerly to or near the residence of Ethel I. Abbott, and make an appropriation for the same.

Article 45. To see if the town will vote to lay a water main in and through Perkins street, from the end of the existing main therein, southerly to a point near the residence of John Forrest, and make an appropriation for the same.

Article 46. To see if the town will vote to lay a water main in and through Main street from the end of the existing main therein, northerly to Broadway, and make an appropriation for the same.

Article 47. To see if the town will vote to extend the water main in and through North street, from near the residence of Frank G. Wiley, easterly to the land of George W. Smith, and make an appropriation for the same.

Article 48. To see if the town will vote to locate a hydrant at the junction of Main and North streets, and make an appropriation for the same.

Article 49. To see if the town will vote to repair the culvert on Summer street, near the corner of Pond street, and make an appropriation for the same.

Article 50. To see if the town will vote to have the pond in Lindenwood Cemetery cleaned, and make an appropriation for the same.

Article 51. To see if the town will accept the provisions of Sections one to five inclusive, of Chapter 101 of the Revised Laws, regulating the disposal of burnt and dangerous buildings.

Article 52. To see if the town will vote to paint and shingle the buildings situated on the town farm, and make an appropriation for the same.

Article 53. To see if the town will locate an arc light on Pomeworth street, near the railroad crossing, and make an appropriation for the same.

Article 54. To see if the town will locate electric lights in the following locations: One on Pond street at the junction of Walnut street; one on Pleasant street near the residence of Wallace Woodward; one on Main street near the residence of Mary A. Carlin; one on High street about six hundred feet north of Broadway; and one on Congress street

near the residence of Warren E. Clark, and make appropriations for the same.

Article 55. To appoint a committee to revise the By-Laws of the town.

Article 56. To see if the town will appropriate a sum of money for the suppression of the Gypsy moth, Browntail moth and other injurious insects, and take such action as may be necessary in the matter.

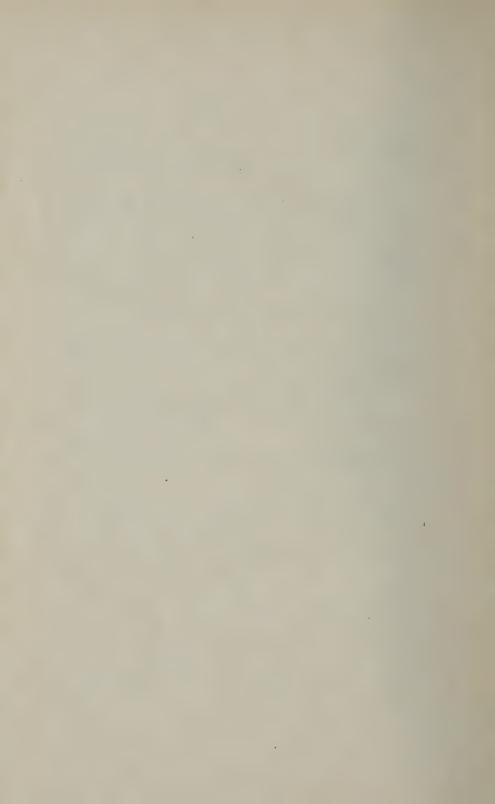

And you are directed to have one hundred copies of this warrant printed, and to serve the same by posting up twenty-five attested copies as follows, viz: One at each of the Meeting-houses and School houses in said town, and the residue of the twenty-five copies in conspicuous places in different sections of said town, seven days at least before the time for holding said meeting. The remaining seventy-five copies you are required to have at the place and time of meeting, as aforesaid, for distribution.

Hereof fail not, and make due return of this warrant, with your doings thereon, to the Town Clerk, at the time and place of meeting as aforesaid.

Given under our hands this twenty-third day of February, in the year of our Lord one thousand nine hundred and four.

JOSHUA T. NOWELL HARRY E. HERSAM, LEONARD P. BENTON, Selectmen of Stoneham.

A true copy Attest: John C. C. Small, Constable.
